NUMBER 25

POULTRY ESSAY CONTEST ROUSES MUCH INTEREST

Additional Prizes Will Be Given; Entrants Are Announced

Local prizes as well as the state awards are providing additional incentives for the Antioch young people who are taking part in the essay contest which the Illinois Poultry Industry council is sponsoring.

The Mount Hatchery is offering prizes of 25 baby chicks to each of the five highest contestants. Other concerns have also signified their intention of giving prizes.

The local contest closes April 3, and the five best local essays will be entered in the county contest on April 15. The six highest contestants in the state contest will be awarded scholarships at the University of Illinois.

The contest is being sponsored by the Illinois Poultry Industry council in conjunction with the Seventh World's Poultry congress, to be held at Cleveland, O., July 28 to Aug. 7.

Local Sponsors
C. L. Kutli of Antioch is a member of the Lake county committee for the Cleveland gathering.

Mr. Kutli announces that the following local concerns and persons are sponsoring the Antioch contestants in the event and have bought up the 30 memberships allotted for this territory:

The Mount Hatchery, First National bank, C. F. Richards, Antioch Lumber company, Scott's dairy, Williams store, Antioch Milling company and the Antioch Packing company.

The contest is open to young people between the ages of 14 and 21.

All Sponsors Assigned
Those now registered are:

Betty Medsen, Ruth Turnock, Frances Beimer, Arlene Krahn, Eleanor White, Hazel Fields, Norman Edwards, Lloyd Drom, Albert Smith, Charles Trux, James Roepenack, Joseph Carney, Lloyd Miller, Jack Newman, Edward McNamara, Lawrence Keiser, Robert Bolton, William Renner, Harold Severson, Orville Winfield, Carl Wurster, George Winfield, Gordon DeBoer, John Blackman, Richard Prince, Robert White, Lyell Dible, Fred Zilke, Richard Hartnell and Richard Trux.

In the event that others wish to enter it may be possible that sponsors for them may be secured from other localities, as all local sponsors have been assigned to contestants, Mr. Kutli announces.

Essays may be written on either of two subjects: "The Economy and Value of Eggs in the Diet," and "The Importance of Quality Market Poultry to the Illinois Farm Income."

Grass Lake P. T. A. Has Successful Card Party

One of the most successful card parties the Grass Lake Parent Teacher association has sponsored to date was that held last Friday evening.

A large attendance was present and pinochle, five hundred and bunco were played, with prizes going to Mr. Winship, Mrs. W. D. Wood and Mrs. Charles Zapf, respectively.

Refreshments were served afterward. A basket social is being planned by the P. T. A. for Friday evening, Feb. 10. The event will be in the nature of a benefit for the P. T. A.'s work for the children.

Woman's Club to Hear Talk at Meeting Monday

"The Changing Map of the World" is the subject upon which Mrs. Cecil R. Boman will speak at a meeting of the Antioch Woman's club Monday afternoon, Feb. 6.

The meeting will be held at the home of Mrs. J. Ernest Brook, at 2 o'clock. Assisting hostesses will be Meses. Mary Smart, Ernest Simons, Lester Osmond and Howard Smith.

Cedar Lake P. T. A. to Hold Meeting Tonight

R. E. Clabaugh will be the speaker at a meeting of the Cedar Lake Parent Teacher association this evening. On Saturday evening, the P. T. A. is sponsoring a card party and dance at Ireland's Lone Oak Inn.

Club Women Hold Party

A number of club women in this area have made plans to attend the State-Wide party which is to be sponsored by the Illinois Federation of Women's Clubs this evening in the grand ballroom of the Sherman hotel.

Firemen's Wrestling Show to be Mar. 24

The date of the benefit wrestling and boxing show to be sponsored by the Antioch firemen has been advanced from March 31 to March 24, when it will be held in conjunction with the annual Golden Gloves tournament. The firemen will co-operate with R. H. Childers, coach at Antioch Township High school, in presenting the program, which will be held in the high school gymnasium.

"Jim" McMillen of Antioch, a wrestler of national fame, will be a headliner on the program and is also lending his assistance in securing worthwhile talent to fill in an entertaining bill.

PLAN TO DISCUSS PENDING LAWS ON EDUCATION

Dinner and Program Will Be Held at Cedar Lake School Wednesday

Pending legislation with regard to the educational system will be discussed at a meeting to be held by the local branch of the Illinois Educational association, next Wednesday evening at the Cedar Lake school.

The meeting will open at 6:30 o'clock with a supper to be served under the auspices of the Cedar Lake Parent Teacher association and the program will follow.

H. H. Reichers, a member of the Antioch High school teaching staff, will act as chairman.

R. E. Clabaugh, principal of the Antioch Grade school, will act as leader for the discussion of proposed teacher certification laws; W. C. Petty, county superintendent, is to lead the discussion on teachers' pensions and Mr. Reichers that on tenure of positions.

There will also be a discussion of studies made by the publicity committee of the Lake Shore division of the Illinois Education association. L. O. Bright, principal of Antioch Township High school, is a member of this committee and will have charge of this feature of the program.

Each school in the Lake Shore division with 10 or more teachers is entitled to a delegate to represent it in the divisional meetings, one of which will be held this week-end in Chicago. L. O. Bright is the delegate for Antioch High school and R. E. Clabaugh represents Antioch Grade school and rural schools in the township.

Antioch Lions are Defeated by McHenry

In one of the most exciting games on their schedule this season, the members of the Antioch Lions basketball team bowed to the undefeated Anderson's Service team of McHenry, Tuesday evening in the Antioch High School gymnasium. The final score was 66-36 in favor of Anderson's Service.

The three Anderson brothers, mainstays of the team, succeeded in making some "miraculous" shots for the basket to raise their score. Gene Sheehan was high point man for the Lions, with six baskets, and Robert King was next with four.

The Lions' second team defeated Round Lake, 34 to 21, in the opening game of the evening.

On Monday evening, Feb. 6, the Lions will play another McHenry team.

The Lions are also challenging the Antioch firemen to send a team against them some time in the near future.

Box scores for the game with Anderson's Service were as follows:

Lions	FG	FT	P
Sheehan, f	6	0	0
King, f	4	0	1
Steffenberg, c	2	0	4
Schneider, g	2	0	1
Doolittle, g	2	0	1
Keulman	1	1	1

Conway, g	1	1	0
G. Anderson, g	4	0	1
Ferwerda	0	0	0
Totals	60	6	4

Mr. and Mrs. Ray Eddy were Waukegan visitors Wednesday.

Mrs. Emil Risch entertained a number of friends at her home Wednesday afternoon.

ANIMAL DISEASE CONTROL TO BE SPEAKER'S TOPIC

Dr. G. W. Jensen to Speak Before Livestock Class Next Wednesday

Dairymen and livestock men will have an opportunity to learn what is new in the field of animal disease control when Dr. G. W. Jensen, local veterinarian, and C. L. Kutli, instructor in vocational agriculture present the topic, "A Modern Conception of Livestock Health," for the class on livestock raising at Antioch High school next Wednesday evening.

The latest developments in the control of Bangs' disease will be presented by Dr. Jensen. The classes start at 8 o'clock.

Homemakers, who will meet with Mrs. Richey, will take up pattern cutting for dresses, curtains, special gifts, and the re-modeling of clothes.

"Sheep Raising in the Midwest" was the subject touched upon in interesting fashion by William Duncan, shepherd of the famous flocks at Marlbar farm, Libertyville, last evening, for the livestock class.

Mr. Duncan took up his topic from the viewpoint of the year-round care necessary in the raising of sheep, and gave many interesting practical suggestions.

The selection, preparation and serving of foods were discussed in the home-making class.

Wauconda Humbles Antioch, 26 to 17

Antioch to Meet Warren in a Game Here Friday Evening

(By Scoop)

The Antioch Sequoits were defeated by Wauconda High School at the Wauconda gymnasium last Friday night, 26 to 17. This was the Sequoits' third straight loss and fourth conference defeat.

Wauconda's star center, Dickson, was the hero of the game by swishing the net 7 times from the floor. Manning of Antioch led the scoring for the Sequoits with 5 points. At the end of the first half the Bulldogs were ahead 11 to 4, the Sequoits' scoring being contributed by Brogan and Manning. During the last half the Sequoits fought hard but could not stop Dickson who contributed a few more baskets for the Wauconda score. As the gun sounded the Sequoits were behind 9 points.

Revenge to Be Sought

Tomorrow (Friday) night the Sequoits will attempt to get revenge on their old rival from Guerne for the defeat handed them by Warren earlier in the season. Warren has not been defeated yet this year and thus they are leading the conference with an unmarred record. There will be two games, with the first game starting at 7:30.

Young Folks Take Chance in Rotnour Comedy Drama

Imagine two young people, neither of whom has ever seen the other, getting married—with their eyes blindfolded! That's what happens in the comedy drama, "Just You and I," to be given by the J. B. Rotnour Players next Thursday evening at the Crystal theatre.

There will be several new members in the cast, including: Emil Conley, leading man, Miss Doris Berken, who has been ill with bronchitis, has returned to the cast.

This evening, the troupe is presenting "The Little Brown Church in the Vale." Free merchant tickets may be obtained from concerns listed in an advertisement appearing elsewhere in this issue.

News Item: Some Business Firms Must Fill Out as Many As 141,000 Government Reports Annually

LIBERTYVILLE GIRL WINS 4-H HONORS

Marjorie Kane of Lake county has been named Illinois Delegate to 4-H National Camp in Washington.

Miss Kane will represent the 300 boys and girls 4-H club members of Lake county and approximately 32,000 in the rest of the state at the national 4-H club camp to be held in Washington, D. C., June 13 to 20 as one of four delegates with a total of 32 years of leadership and outstanding accomplishment to their credit.

The other delegates selected are Mary Lois Sunderland, Delhi, Jersey county; Richard Harris, Macomb, McDonough county; and Delbert W. Gabel, Yorkville, Kendall county.

Final selection of these four was made by 4-H club officials of the College of Agriculture, University of Illinois, from a list of candidates submitted by farm and home advisers and local leaders.

Marjorie Kane, 17 years old, a graduate of Libertyville Township High school, is a freshman in home economics at the agricultural college, University of Illinois. Her project work has been in clothing, foods and leisure hour, while her extra activities have taken her into judging, demonstration and style revue work and leadership of foods and clothing clubs.

Among her many accomplishments Miss Kane turned out 112 1/2 dozen cookies in a foods project in 1937. In 1936 she took first place in the County Style Revue Contest. She was named state project champion, winning a trip to the club congress in Chicago. Miss Kane also served as president for her county club federation in 1935.

Miss Kane began her 4-H career at the age of ten when she enrolled in the Lucky Clover Club with Mrs. Robert Rouse of Mundelein as leader. After three years Mrs. LeRoy Kane became leader of the club with Marjorie as assistant. Marjorie has also been a member of the Clever Workers' Pajama Club and Busy Fingers Club with Mrs. M. J. Achen of Diamond Lake as leader. That Marjorie has an enviable record can be seen on learning that she has been county champion every year, state champion for four years and state outstanding member for two years. She was also chosen the best all-around camper for Lake county in 1936. She says her 4-H experiences have prompted her to choose home economics as a profession. She received a scholarship from the Farmers' Institute to the State University where she is preparing herself to teach later to do extension work. It is the wish of all her associates in 4-H club work that she may have continued success.

Miss Kane is the daughter of Mr. and Mrs. Leroy Kane of Diamond Lake.

4-H club work in Lake county is sponsored by the Home Bureau. Mrs. Helen Johnson Volk is Home Adviser and has her office in Grayslake.

RURAL YOUTH DANCE

The Lake County Rural Youth association is sponsoring a dance to be held at the Libertyville Township High school Wednesday evening, Feb. 8, from 9-12 P. M. Dancing will be to the music of Jerry Mumford and his nine-piece orchestra featuring the "Three Shades of Blue." This orchestra was formerly known as Val Stens orchestra. Everyone is welcome.

Louise Gilbert, Chicago, was the guest of her parents, Mr. and Mrs. J. C. James, Saturday and Sunday.

Announce Epworth Institute Program

The Lake Shore Sub-District Epworth Leagues are holding their annual Mid-Winter Institute on Sunday, February 5, at the Libertyville Methodist Church. Rev. Loyal V. Sitter of Waukegan and Rosecrans will be Dean of the Institute.

Registration will begin at 2:30 P. M., with Marion Martin of Winthrop Harbor acting as registrar. Following this a short worship service will be held by Dean Sitter.

Classes of interest to every young person will convene immediately after this service. The following topics will be discussed:

"Youth at Worship," by Rev. Truman Potter; "Youth and His Friends in Other Lands," by Miss Emily Hodder, who is in charge of World Comradeship for the Board of Education for the Methodist church; "Youth and Community Service," by Herman Will, District Delegate to the National and International Youth Conference, and "Youth at Play," by Rev. Ralph Kolofed of Ringwood, who is recreational leader at Lake Geneva Institute.

The classes will be held in two sessions with a period of recreation between, led by Rev. Kolofed.

At 5:30 a pot-luck supper will be served. Every person attending is asked to bring his own sandwiches and a dish to pass.

During the supper hour a Lake Geneva Institute pep meeting will be held. Lake Geneva movies will be shown for the first time in this county. Rev. John Tennant, Dean of Lake Geneva Institute will be present and give a short talk.

At 7:30 Rev. Truman Potter, pastor of the First Methodist church in Lake Bluff, will conduct a worship service. He will be assisted by representatives of Epworth Leagues in all parts of the county.

Rev. Howard Ernsberger, nationally known youth worker and co-worker of E. Stanley Jones in India, will be the speaker of the evening.

Several of the Northern District officers will be present to aid in making the Institute a success.

The Mid-winter institute is one of the outstanding events of the League year. Every young person in Lake county is invited, regardless of denomination, it is announced.

"Valentine's Dance" Is Planned by High School

Valentine's Day themes will be arranged for the all-student dance to be held at Antioch Township High school Wednesday evening, Feb. 15, under the auspices of the All-Student council. On the committee are Mildred Horan, Dale Smith and Arlene Krahn.

Business Women to Hold Pot Luck Supper Tuesday

Games and other entertainment will follow a 6:30 o'clock pot luck supper to be held by the Antioch Business and Professional Women's club Tuesday evening, Feb. 7, at the home of Mrs. H. B. Gaston.

High School to Send Delegates to Meeting

Antioch Township High school will be represented by five delegates at the annual State Student Council conference, to be held on March 31 and April 1, at Peoria.

SONS OF LEGION DRUM-BUGLE CORPS STARTS PRACTICE

Instruments Arrive and a 40-Member Group Has Initial Drill

Anyone within a radius of two blocks from the American Legion hall Tuesday evening must have been aware, from the distinctly audible "blare of bugle and rattle of drums" that the Sons of the American Legion Drum and Bugle corps was starting out in earnest on its first drill and lesson.

With the arrival of trumpets and drums for the corps a few days ago, the boys have set about preparing to share in various coming events.

The corps at present consists of 24 trumpets, eight side drums, two bass drums, two sets of cymbals, two color bearers and two color guards. It is planned to enlarge the corps later if this is found feasible.

Drum Majors

The drum majors will consist of Daughters of the American Legion.

Otto S. Klass, chairman of the advisory committee for the drum corps, states that he hopes to have four young ladies to lead the group in processions.

Commander Warren Edwards and Adjutant Clarence White of the Legion are assisting Mr. Klass in the work of the drum corps.

Chairman Klass says that he hopes to have the boys in uniform and parading by Decoration Day. "It's going to take a lot of hard work, but the boys are showing real enthusiasm and people are co-operating very graciously."

The instructors are Legionnaire Tim Kolloran on the trumpets and Eric Ericson on the drums. They are also instructing the boys in field drill.

It is planned that, if possible, the corps will take part in the American Legion state convention this year.

Nephew of Channel Lake Woman Dies in Chicago

Mrs. John Doyle, Channel Lake, has returned from Chicago, where she was called by the death of her nephew, Edward Solon Barton, 23, Saturday at St. Anne's hospital. Funeral services were held Wednesday at Ascension church in Oak Park, with burial in Mt. Carmel cemetery.

Barton's death was attributed to influenza and heart complications. It followed by only a few weeks that of his mother, Mrs. Teresa Marie Barton, for whom funeral services were held on Christmas Eve in Ascension church.

Surviving the youth are his father, Ancil Barton of Chicago, and two brothers, William and Loras.

Daughter of Rosecrans Pioneers Dies at 75

Funeral services for Miss Emma L. Ames of Rosecrans were held Sunday afternoon at 2 o'clock in the Rosecrans church with the Rev. W. C. Hendrick of Antioch officiating. Interment was in Mount Rest cemetery.

Miss Ames, who was 75, was born at Rosecrans and lived there all her life. She was the daughter of the late Mr. and Mrs. Roderick Ames, pioneer settlers. Her death occurred Friday, in a Waukegan hospital.

Surviving are a sister, Julia Harris, of Los Angeles; three brothers, Philo Ames, state of Washington; Henry Ames, Rosecrans, and John Ames, Coeur d'Alene, Idaho.

Attend Eight and Forty County Salon Meeting

Mrs. L. John Zimmerman, Mrs. Paul Chase and Mrs. William Ward were Antioch representatives attending a meeting held by Lake County Salon No. 191 of the Eight and Forty last Wednesday evening at the home of Mrs. George McGaughey, Waukegan. A miscellaneous shower was held in honor of Mrs. Katherine Sheldon Thompson.

Legion Auxiliary to Hold District Meeting

Past presidents of local units are especially invited to be present at a meeting to be held by the Tenth district of the American Legion auxiliary Wednesday evening, Feb. 8, in the Legion hall at Lake Forest. The hall is located at the corner of McKinley road and Wisconsin avenue.

Economy Comes Back

(From the Washington, D. C., Star)
Campaign promises of economy and efficiency in Government are not always made to be kept. There is real news, therefore, in the economy wave which seems to be sweeping through many States in the wake of new gubernatorial regimes.

These developments in the States are straws that show which way the wind is beginning to blow. The American people are tired of waiting for prosperity to come around the corner under the whiplash of improvident spend-and-tax policies.

There may be food for some thought in all this for the administration's fiscal policy formulators.

Aiming at the "Little Fellow"

It is reported that there is a growing belief among Congressmen that the revenue derived from the income tax must be increased. It is also reported that Treasury officials are extremely dubious as to the possibility of raising any substantial additional amount of revenue by "soaking the rich" further. Big individual incomes are already subject to surtaxes ranging up to 80 per cent, and the point of diminishing returns has been reached.

Therefore, it is argued, additional income tax must be raised by increasing the levies on persons in the lower and middle tax brackets—and by dropping those brackets so as to reach income levels which are now exempt from direct taxation.

If this comes to pass—and it is obvious, if we continue to spend two dollars for every dollar we take in—that tax revenue must be upped—those citizens who have taken small interest in government fiscal policy, on the theory that the rich must pay the bills, will be due for the rudest sort of an awakening. The fact of the matter is that today the rich could pay but a small part of taxes required even if their total incomes were confiscated. The great bulk must be paid by ordinary citizens, through indirect, hidden taxes which constitute part of the cost of everything we buy and use. But relatively few of us seem to realize that—and it is that blindness to fact which has created our almost criminal in-

difference toward the tax and debt policies of our government.

Reducing income tax exemptions and increasing the levies in the middle and lower brackets would bring home hard to almost every citizen the tremendous, personal interest he has in the financial conduct of government. It would show him once and for all that economical, efficient government means more dollars in his pocket—and that wasteful, inefficient government means fewer dollars in his pocket.

We're nearing the cross-roads in fiscal policy now. Either the cost of government will be cut—or taxes will continue to rise.

They Say . . .

"I am getting tired of the ceaseless din of voices, and the crowding headlines, all shouting about what is wrong with America. I fervently wish someone would start talking about what is right with America."

Charles R. Hook, president, American Rolling Mill Co.
"We are drifting with ever increasing speed into government planned economy, state capitalism and totalitarianism. The inevitable result of such planned economy is ultimate dictatorship. This is a tendency which, if not checked, will move strongly into some form of national Socialism or Fascism."—Orval W. Adams, of Salt Lake City, former president American Bankers Association.

"We need more study and less talk, more scholars and fewer propagandists. There is scholarship in the mill and market place and on the farm, as well as in the halls of learning. There is more knowledge in the world than we know what to do with. The problem is how to co-ordinate and apply it."—Dean William F. Russell of Teachers College, Columbia University.

The Labor Relations Act

It is refreshing to see that certain progressive labor groups, including some affiliates of the American Federation of Labor, are urging reasonable modification and revision of the National Labor Relations Act.

Farsighted labor leaders are the first to recognize that the cause of honest unionism is harmed, not served, by extremist legislation which is predicated on the principal that labor must be favored at every turn, and the employer penalized. The Labor Relations Act, at least as construed by the Labor Board, puts almost no restrictions on the activities of labor—and hedges the employer to the extent that he had almost no rights at all when controversies arise.

Dispassionate and fair revision of the Act is absolutely essential to the maintenance of peaceful industrial relations—and to the welfare of legitimate unionism.

WILMOT

Mr. and Mrs. David R. Kimball entertained Friday evening for Mr. and Mrs. Max Miller and Miss Hulda Kimball of Genoa City and Mr. and Mrs. George Higgins and Lillian. On Sunday their dinner guests were Mr. and Mrs. Lynne Sherman, Mr. and Mrs. Fred Lent and daughters of Genoa City.

Merlin Peterson is home with his parents, Mr. and Mrs. Winn Peterson, for the mid-semester vacation at the Wisconsin University.

Mr. and Mrs. Paul Ganzlin were guests Friday evening of Mr. and Mrs. Oliver Mathews at Antioch.

There will be a bingo party for the benefit of the Holy Name Church Sunday evening at the Klobucher dining hall. Refreshments will be served.

Mrs. Ray Rudolph returned Thursday from the Burlington hospital where she underwent an appendectomy.

At the annual business meeting and election of officers of the St. Anne's Society of the Holy Name church on Sunday the same officers were re-elected: Mrs. Warren Sarbacker, president; Mrs. Francis Reiter, vice president; Miss Rose Yanny, secretary; Mrs. Benjamin Nett, treasurer.

Mr. and Mrs. M. M. Schurr entertained at games and cards Saturday evening for Mr. and Mrs. Thomas Duffy; Mr. and Mrs. Herbert Frank; Mr. and Mrs. Fred Schmalfeldt; Russell Ende and the Misses Ruth Thomas; Mildred Berger; Winnie Dake; David Deal; Margaret Cartwright and Marion Rhodes.

Mr. and Mrs. Herman and children were dinner guests Sunday of Mr. and Mrs. Fred Albrecht.

Mrs. Frank Burroughs entertained Saturday afternoon at three tables of bridge for Mesdames Frank Kruckman, Herbert Sarbacker, Paul Ganzlin, Winn Peterson, Lloyd Stoen, Harry McDougall, Otto Schenning, Arthur Holtdorf; Marlin Schurr, and Misses Anna Kroncke, Ermine and Grace Carey. A luncheon was served following the card game.

John Frank is ill and under the care of Dr. F. Bennett, of Burlington.

Services at the Peace Lutheran church Sunday morning will be in English at 9:30 and German at 10:45.

Mr. and Mrs. George Higgins were dinner guests Sunday of Mr. and Mrs. Kenneth Hoffman at Genoa City.

Mrs. Frank Zarastoff returned Thursday from the Burlington hospital where she underwent a major operation.

The Lutheran Ladies Aid will meet at the church hall on Wednesday afternoon.

Louis Gandt had his car badly damaged when it went into a skid on the Rasch hill Saturday night and overturned.

Mrs. Oliver Balza and son, Kenneth, spent from Thursday to Saturday with Mr. and Mrs. William Harm. Mrs. Balza attended the funeral services for her uncle, Fred Harm, at Spring Grove on Friday.

Jeannette Wertz was home from Glenoe Thursday with her parents, Mr. and Mrs. William Wertz.

Mr. and Mrs. Paul Voss and children drove to Lake Zurich Sunday for dinner with Mr. and Mrs. Ralph Marzahl.

The Oak Knoll school is sponsoring a dance at the Wilmot gymnasium Saturday night, Feb. 4, with a Ken-

sha orchestra furnishing the music.

Mr. and Mrs. H. Sarbacker and Bobby visited Sunday at Zion with Mr. and Mrs. J. West and in Kenosha with Mrs. J. Sarbacker.

Mr. and Mrs. Don Herrick were out from Chicago Sunday for the day with Mr. and Mrs. Harry McDougall.

Mrs. Ada Brown, grand lecturer of the Wisconsin O. E. S., is to be at the Wilmot O. E. S. meeting Tuesday evening for inspection. Special guests of the worthy matron, Mrs. Elona Sarbacker, will be Miss Olive Hope, Salem, and Mrs. Helen Bagnell, Lake Geneva. Decorations will be in black and white carried out in snow men favors and white candles for luncheon tables.

Harry McDougall and Russell Elwood were in Chicago Saturday.

The Mothers club will attend a play given by the first and second grade children at the Grade school on Tuesday afternoon, February 7, at 3:30 p. m. The regular monthly business meeting of the club will be held after the play.

Miss Ruth Bosselman of the Home Economics department of the High school has started evening classes, to be held every Thursday evening at 7:30. The class is open to adults and is now taking up clothing construction.

Union Free High School

Norris Farms defeated the Wilmot team 33-13 Friday night. Union Grove will play at Wilmot gymnasium Friday night against the home team. The second semester started Monday. Report cards were issued Monday.

A. C. Peter, Secretary of the Elkhorn P. C. A., will be present at the meeting of the agriculture class at the school on Thursday evening at 8 o'clock and will talk on agricultural credit and how to obtain it from the Elkhorn P. C. A. Anyone interested is invited to attend.

Greb-Blackman

Mr. and Mrs. John Blackman announce the marriage of their daughter, Marion, to Milton L. Greb of Kenosha, Thursday at one o'clock at Waukegan. Mr. Greb is the son of Mrs. George Caddock of Kenosha.

For the wedding, the bride wore a tan frock with brown accessories and a shoulder corsage of pink rose buds. Miss Irma Blood, of Chicago, attended the bride and wore a burnt orange frock with matching accessories.

The bridegroom was attended by a cousin of the bride, Floyd Rasmussen of Kenosha.

A wedding dinner was served at five o'clock Thursday to relatives and friends at the home of the bride's parents in Wilmot. A large reception was held later in the evening at the home of the bridegroom's mother at 100 Seventieth street, Kenosha.

Mr. and Mrs. Greb will make their home in Winnetka.

Sinususes That Come Later

Only one set or group of sinuses, the ethmoids, is present at birth; all the other sinuses develop after birth from little depressions located in the nasal passages.

Oysters Contain Much Iodine

In organic iodine alone, it is estimated that oysters contain about a hundred times as much as the same quantity of beef and eggs.

TREVOR

Russell Longman is confined to the house with the mumps.

Mr. and Mrs. L. Easer, daughter, Winifred, and son, Richard, were Sunday callers at the Charles Oetting home.

Mrs. Kermit Schreck is on the sick list.

Rev. Axel, Silver Lake, was a caller Sunday at the Ira Brown home.

Kenneth Brown, Salem, called on his uncle and aunt, Mr. and Mrs. Arthur Bushing, Sunday.

Friends of William A. Fox, Salem, teacher at the Trevor school, will be sorry to hear of his returning to the Kenosha hospital for treatment for his limb injured in an auto accident last summer. Mrs. Gordon Dix, Salem, is substituting for him as teacher.

Gus Ganzlin, Silver Lake, was a business caller in Trevor Tuesday.

Mrs. David Eilers and Mrs. Elmer Fleming and children were Burlington visitors Thursday.

Clarence Runyard of Chicago spent the week-end with the home folks.

Mr. and Mrs. Nick Hilbert spent Wednesday evening at the John Schmidt home.

A. K. Mark and daughters, Elva and Nina, attended the silver wedding anniversary of Mr. and Mrs. George Christensen in Racine Tuesday evening.

Hints for Homemakers

By Jane Rogers

WHEN your teen-age daughter comes home with the news that she has been elected chairman of the "Prom-Trotters" committee for this year, you can be certain that for the very first dance she is going to come clamoring for a recipe for punch. So clip this for your file and have it ready and waiting. It's easy to prepare and has a zip and tang that is refreshing and stimulating and very acceptable to the teen-age thirst.

Prom Trotters Punch

1 gallon fresh orange juice
1/2 gallon fresh lemon juice
1 gallon cherry juice
4 gallons canned unsweetened Hawaiian pineapple juice
1/2 gallon grape juice
4 gallons water
1/2 pint strawberry syrup
2 pounds cane sugar
12 quarts ginger ale
Slices of oranges, lemons and pineapple
Ice
Mix all ingredients except ginger ale, sliced fruit and ice, and let stand overnight in a cool place (refrigerator preferred). Before serving time, place clear block of ice in bowl, pour in punch, and add ginger ale. Garnish top of ice block with sliced fruit. Approximately 350 servings (16 gallons).

Mrs. Nell Runyard and sons, Clarence and Stanley, visited Mrs. Robert Price of Hebron, Ill., Sunday.

Mr. and Mrs. John Hilbert were Kenosha visitors Tuesday.

Mr. and Mrs. Robert Runyard, Mrs. Rita Clark, Mrs. Will Runyard of Antioch and Mrs. Nell Runyard spent Thursday with Mrs. Charles Runyard. Dr. Alcorn of Burlington made professional calls in Trevor during the week.

Mr. and Mrs. Will Davis, Twin Lakes, called at the William Evans home Thursday.

Mr. and Mrs. Vernon Runyard and Chester spent Wednesday evening with Lyle Mecklenburg at English Prairie.

Mr. and Mrs. Boersma spent Saturday in Milwaukee.

Mr. and Mrs. Allen Copper and son, Dennis, Chicago, spent over the week-end and Monday with his mother, Mrs. Mattie Copper, and sister, Gertrude.

Joseph Holly, Oak Park, was a visitor Sunday at the home of Mrs. Anna McKay. Ruth Thornton returned home with him for the week.

Tungsten Is Strong

Besides its high melting point, tungsten has other outstanding qualities. When drawn into a wire in such manner as to produce a fibrous structure, it has a tensile strength of 850,000 pounds to the square inch, the strongest in the world.

Cemetery of Pigeons

Tourists who have seen in Washington the famous carrier pigeon Cher Ami that saved the American Lost Battalion in the war, often visit the little cemetery at Asnieres by Paris where tiny graves honor many more of these winged veterans.

How Per Capita Cost Increased

National wealth and income were only two-thirds greater in 1938 than in 1914. In that time, however, per capita cost of government grew nearly 4 1/2 times.

Gas Gas All Time

Mrs. Joe Miller says: "Gas on my stomach was so bad I couldn't eat or sleep. Gas even pressed on my heart. Adlerika brought me quick relief. Now, I eat as I wish, sleep fine, never feel better."

PETER PREACHES AT PENTECOST

LESSON TEXT—Acts 2:12-13, 33-41.
GOLDEN TEXT—Not by might, nor by power, but by my Spirit, saith the Lord of hosts.—Zechariah 4:6.

We need a revival. With one accord leaders of the Church agree on that point although they may differ widely on other matters. Social and civic leaders agree. One prominent government official recently said that the only hope for the world in this hour of conflict and confusion was a return to the Christian faith of our fathers. He was but one of many outstanding men who have expressed such a belief.

How may such a revival of faith toward God (with its quickening of the believer and the resultant salvation of sinners) be brought about? Certainly it is not in the power of man to produce it, although he does have a vital part in surrendering himself to God's plan and purpose so that He may work again in the midst of His people. Our lesson for today clearly indicates how God worked on Pentecost, namely, through a Spirit-filled people, proclaiming His own Word, with astonishing results following. Will not God work in the same way today if we only give Him a chance?

I. An Amazing Spiritual Experience (vv. 12, 13).
Read the first 11 verses of this chapter and you will learn of the coming of the Holy Spirit upon the disciples—as the rushing of a mighty wind, in tongues of fire, and in the ability to proclaim the Word of God to all men.

There is no use talking about another Pentecost as though God needs to repeat that marvelous day. But the essence of what occurred on Pentecost is the deep need of both individual Christians and of the Church today. In much (one is almost ready to say most) of our Christian work there is not only a failure to recognize the Holy Spirit, but what appears to be an actual ignoring of Him. One of the great experiences of literally thousands of students who have come under the writer's care during the years is their sudden understanding of the fact that the Holy Spirit is a person—yes, a convicting, regenerating, directing, and energizing member of the divine Trinity, working in and through man.

II. An Effective Spiritual Message (vv. 14-18, 30. See also vv. 19-35).

The characteristics of a real gospel message are found here. First of all there must be a Spirit-filled preacher. He may be a minister or he may be a layman, but if the Spirit of God is upon him, there will be the right kind of message.

That message will not be an essay, book review, or dissertation on social or civic problems, but an exposition of the Word of God. Note that Peter preached and interpreted prophecy—a subject which no preacher should neglect—but that he did so not for the purpose of having a sensational sermon subject, but in order to reveal the glories of the person and work of Christ—a lesson some preachers need to learn.

The manner of preaching is also important. Peter was definite, earnest, bold, and decidedly personal in his preaching. A man who is speaking in the energy of the flesh should beware of such marks upon his preaching, but a Spirit-filled man should rejoice in the holy boldness and assurance which the Holy Spirit gives. He will be delivered from any temptations to be extreme or unkind, but will at the same time be led to say those things which will prick the hearts of people and cause them to turn to Christ.

III. An Appropriate Spiritual Result (vv. 37-41).

We often say that there is very little old-time conviction of sin today, and alas, it is all too true. It is not even the privilege of many spiritually-minded preachers who present a true gospel to see such a response as Peter saw on Pentecost. But that does not mean that the Spirit is not working.

God does not hold us responsible for outward evidence of results. He does hold every teacher and preacher responsible for faithful discharge of his sacred stewardship. That includes more than the public ministry of teaching a Sunday School class or preaching a sermon. It means that the individual's life is right with God—no trickery, no dishonesty, no double dealing with God or man; a life yielded to the control of the Holy Spirit. Next comes diligence in study of God's Word, and a willingness to proclaim its whole truth without fear or favor, in season and out of season.

The Living Word.
Christ is the Living Word; so it is the Word of God that has come from God, and has come into this world, and by which all and every operation of God is effected. Where the Word of God is received the soul is begotten of God.

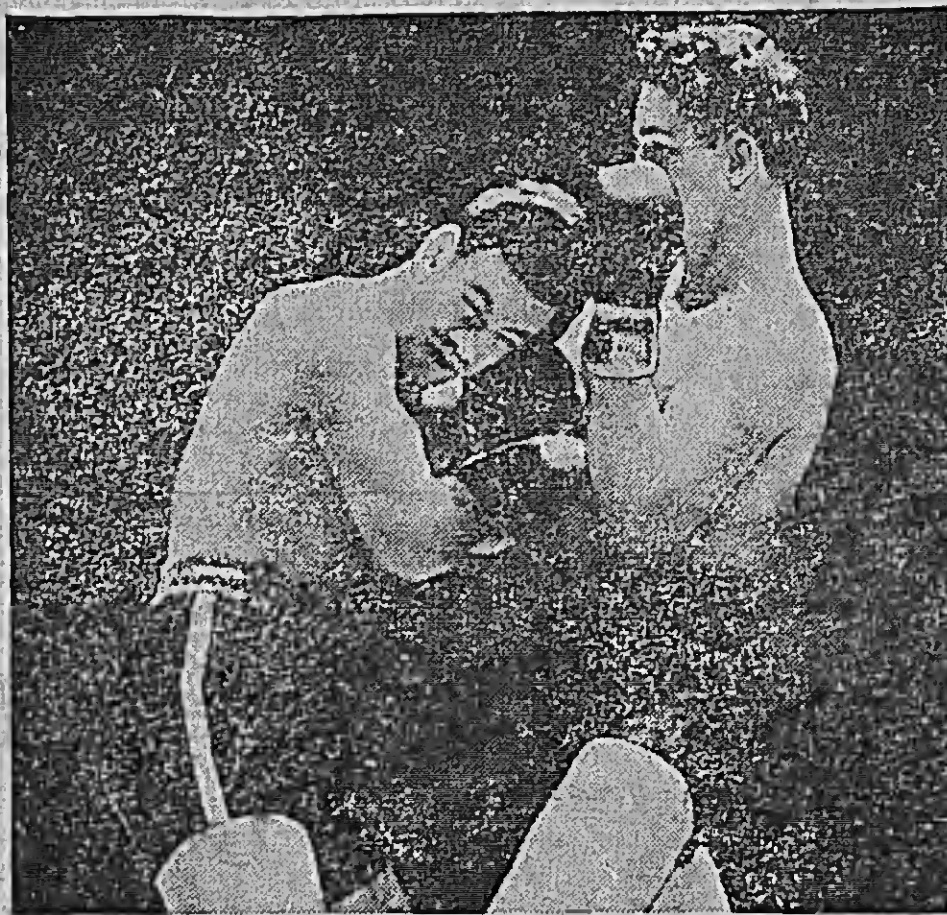

What Do You Know About Health?

By FISHER BROWN and NAT FALK

Answers: 1. The only way to get the real health benefits from milk is to take it internally in food or drink.
2. In the temple in Peking stands this famous Taoist bronze horse, believed to have power to cure all bodily ills, a beast whose back is worn smooth by hands aching with rheumatism, and whose eyes have been almost rubbed away by the blind. For to obtain relief the sufferer must rub the counterpart of the ailing member of his own body on the horse.
3. He was one of the founders of modern hydrotherapy as a branch of healing. His methods were always simple and harmless. In Germany the cold compress placed around the throat for colds and hoarseness still goes by the name Priessnitz compress.

Two Old Friends Meet Again

Photograph shows Fred Apostoli of San Francisco (left), recognized by the New York state athletic commission as world's middleweight champion, as he took a beating at the hands of Billy Conn, Pittsburgh light heavyweight, at Madison Square Garden January 6. The two men will meet again Friday of next week in a 15-round bout at the Garden.

Hints for Homemakers

By Jane Rogers

HAVE you ever tried chilled drained canned Hawaiian pineapple gems—those delicious juicy cut to fit the spoon pieces of golden fruit—also shredded wheat biscuits or crisp corn flakes? Try this combination one of these fine winter mornings. It will boost the popularity of cereal at least fifty points. And don't limit the idea to the children's breakfast because father will like it also.

Here is a new and appetizing whetting thought for the starter course. Zip up tomato catsup with lemon juice, horseradish, Worcestershire sauce, and celery salt, and serve it over well chilled canned Hawaiian pineapple gems. The combination is as good as it is unusual.

VicinityM. M. Stillsons
Entertain H. S.
Faculty, Wives

A "Snow Man" theme featured the buffet supper at which Mr. and Mrs. M. M. Stillsons were host and hostess to members of the high school faculty, board and dietetic and engineering staff and their wives and husbands Monday evening.

The invitations were in the form of "snow men," as were also the tallies for games, and the decorations in the recreation room of the Stillson home, where the party was held, also carried out the idea. "Snow Man" cookies were served with ice cream as the dessert for the supper.

Bridge and Chinese checkers were enjoyed by the 42 persons present. Prizes were won by Miss Esther Fiedeljohn, Miss Lucille Slocum, Mr. and Mrs. L. O. Bright, Mrs. Ruby Richey, C. L. Kutil and Hans Von Holwede. On Tuesday evening the Stillsons also entertained at a 6:30 o'clock dinner for 17 of their friends. Five hundred and Chinese checkers were played afterward.

ATTEND CHICAGO
REBEKAH EVENT

Mrs. C. E. Hennings, Mrs. John Horan and Mrs. Ida Osmond attended the public installation of officers held by June Rebekah lodge, Chicago, on Thursday evening. Mrs. Hennings was formerly a member of June lodge and is a past grand officer. The ritual was put on by District No. 1, in impressive fashion.

EASTERN STAR PAST
MATRONS ENTERTAINED

Mrs. Charles Lux and Mrs. Robert Wilton are entertaining the Past Matrons of the Eastern Star this evening at the home of Mrs. Lux. attended a meeting held in the chapter attended a meeting held in the chapter rooms last Thursday evening.

Cards and a luncheon were enjoyed afterward.

CHRISTIAN SCIENCE CHURCHES

"Love" was the subject of the Lesson-Sermon in all Churches of Christ, Seclust, on Sunday, January 29.

The Golden Text was, "How excellent is thy lovingkindness, O God! therefore the children of men put their trust under the shadow of thy wings" (Psalms 36:7).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Beloved, let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God. And this commandment have we from him, That he who loveth God love his brother also" (1 John 4:7, 21).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The starting-point of divine Science is that God, Spirit, is All-in-all, and that there is no other might nor mind,—that God is Love, and therefore He is divine Principle" (p. 275).

Business Guides

By C. E. Johnston

Director, Business Training
Schools,
International Correspondence
Schools

SPARE time, or that time which the average person spends when he is not actively engaged in earning a living, is actually more important to the young man or woman than the time spent at work. The young person who is striving to "get somewhere" can ensure a successful business career by carefully budgeting his spare minutes. It requires but a few minutes daily to become proficient in some subject or trade which will lead to a better position.

Study the job ahead of you, is good advice. The young person who hopes to move forward in business or in a profession must acquire greater knowledge or skill. Many employers make it possible for the ambitious worker to learn as he works. However, if this opportunity is denied you, do not let yourself get into a rut. There is much that you can do yourself. Offer to do extra work if this will create an opportunity for you to learn more about advanced jobs. The most successful men are those who make their own opportunities.

The employer who fails to encourage loyalty among his employees is courting disaster. The employer who does not develop loyalty to his chief and to the business is endangering his own progress. The employee who expects to be successful in life must have the qualities of loyalty and cooperation.

Personals

Mrs. Douglas McGlenn and Dr. and Mrs. L. John Zimmerman spent Wednesday at Hines hospital with Mr. McGlenn, who has been there for the past month for observation.

New "Fruit of the Loom" house dresses of gay colored prints, sizes 14 to 52, at \$1.19 and \$1.39. Mari-Ann's, Antioch.

Mr. and Mrs. John Nixon, Los Angeles, are visiting Mrs. Nixon's parents, Mr. and Mrs. Fred Loo, for several weeks. Mrs. Lester Nixon is also staying for a few days at the Loo home.

Mrs. John Knitter, who was injured in an automobile accident Jan. 3, is still in St. Therese hospital, Waukegan, and is expected to be there for some time yet.

Mrs. Mollie Somerville returned Tuesday evening from spending five days in Chicago.

Ervin Nevitt, son of Mr. and Mrs. M. F. Nevitt, is convalescing from an appendectomy he underwent at Victory Memorial hospital in Waukegan Friday.

R. E. Clabough, principal of the Antioch Grade school, and L. O. Bright, principal of Antioch Township High school, will attend a meeting to be held by the Lake Shore division of the Illinois Education association Saturday at the Stevens hotel in Chicago.

Mrs. Andrew Lynch, Depot street, has been ill at her home for the past few days.

Mr. and Mrs. William Rosing and Mr. and Mrs. George Garland and daughter, Sue, left Wednesday morning for Key West, Florida. They expect to be gone a month.

Call and see the largest and best assortment of Valentines in Antioch at Webb's Racket Store (the book, gift and toy center). Priced from 2 for 1c to 25c.

Mr. and Mrs. Hugh Hufendick and Mr. and Mrs. Myrus Nelson and family were guests of Mr. and Mrs. Charles Tidy at their home in Elgin, Sunday.

Mr. and Mrs. Virgil B. Felter and daughter, Joan, spent Sunday in Kenosha.

Mrs. Irving Elms was hostess to the members of her bridge club at her home on Orchard street, Friday.

Harold Nelson of Chicago spent the week-end with his parents, Mr. and Mrs. S. B. Nelson.

Mrs. Einar Peterson and Mrs. C. E. Hennings were in Kenosha Thursday.

William Keulman spent Thursday in Chicago.

Mrs. William Rinear, 87, has been ill of pneumonia at her home for the past two weeks. Her son, L. Rinear, of Fond du Lac, was called here by word of her illness and spent the week-end with her.

Card of Thanks

The officers of the Grass Lake P. T. A. wish to thank the members and also Keulman's Grocery store, W. D. Wood of Thorne's store, Webb's Racket Store, and the A & P Food store for their prize donations for the card party Friday evening, Feb. 27, and for their co-operation in making the affair an outstanding success.

Civil Service Examination

The United States Civil Service Commission has announced an open competitive examination for the position of Junior Professional Assistant, \$2,000 a year, including the following options (all in the junior grade): Administrative technician, agronomist, bacteriologist, biologist, botanist, (taxonomic), dairy husbandman, economist, engineer, entomologist, examination assistant, forester, geologist, home economist, pharmacist, plant pathologist, plant physiologist, pomologist, range examiner, soil scientist, statistician, textile technologist, and veterinarian. Applicants must have completed a 4-year college course. Under certain specified conditions applications will be accepted from senior students. Applicants must not have passed their thirty-fifth birthday.

Applications must be filed with the U. S. Civil Service Commission not later than Feb. 27 if received from States east of Colorado, and not later than March 2 if received from Colorado and States westward.

Full information may be obtained from the post office in this city, or from the Secretary of the U. S. Civil Service Board of Examiners at any first- or second-class post office.

The Bonneville Expedition

Capt. B. L. E. Bonneville, U. S. A., on a leave of absence explored, trapped and observed on his expedition through the Rocky mountains and on the Pacific coast from 1832 to 1835. "The Adventures of Captain Bonneville, U. S. A." was collected and edited by Washington Irving.

Finland Popular Lake District
Finland is larger than the British Isles area and has many an attraction which the British cannot boast. England has a lake district of which it is justly proud, but Finland is the lake district of all Europe.

LAKE VILLA SCHOOL NEWS
Upper Room

The boys had a game at Gurnee last Saturday, but they didn't succeed so well, as Gurnee won, 20-12. They play another game tonight (Tuesday) Jan. 31, with Antioch about 6:30 p. m. We're hoping the boys win this game.

Our room is making Valentine posters to put on the boards. We haven't very many of them put up. What there are of them, are pretty nice. Clarence Bennecke made a February calendar on the bulletin board near the windows. He has marked the important dates on it. The other bulletin board is used for current events.

We had movies Tuesday, Jan. 31, on the Boulder Dam.

We are having a special program at the school Thursday afternoon, Feb. 2, at 1:10. The program will consist of motion pictures on Circus life, work, and training during the winter quartering period. A lecture will likewise be given by a specially trained man of one of the biggest circus companies operating today.

On Wednesday evening, January 25, a public mass meeting was held at the school house, at which time plans of the proposed addition of a gymnasium-auditorium to the school were discussed.

A large majority of those present approved of the plans of the school board and gave them a vote of confidence in their work and encouraged them to carry on with the plans.

There will be a special election held at this school on Saturday, February 4, between the hours of 12:00 noon and 7:00 p. m. to vote on a bond issue for the construction of a combination gymnasium-auditorium to be added to the present building. Every person residing within this school district and who is a legal voter at any other election is entitled to vote at this election.

Intermediate Room

Bob Klein is back in school after having chicken pox. We are all glad to have him back. Kenneth Barnstable also came back to school yesterday. We hope we can begin having perfect attendance again like we were having before Christmas and diseases.

Primary Room

Susie had a birthday party Saturday, January 28. Twenty-five children were present. Alice, Buddy and Dallas were the only ones in Susie's class that didn't get there. Holly, Wokom came from Niles Center with Myra Val, and Edith Wegner came from Evanston with Nancy. Susie's little Sand Lake friends were also there. They all report having had a wonderful time and would be glad if Susie had a birthday party every week. I'm sure her mother would enjoy one every week, too. Susie says she received many lovely gifts.

The weather kept many children home yesterday. Just half of Miss Falch's room were present.

Shirley, Alice and Virgil are absent due to illness.

Yvonne visited today. She has been a very good girl.

Kathleen went to another birthday party after going to Susie's. She rode into the city with Edith Wegner.

LAKE VILLA

Lake Villa Com. Church (M. E.)
J. B. Allen, Pastor
Sunday School—10:00 A. M.
Worship Service—11 A. M.

The Senior choir sang at the evening service of the Ingleside church last Sunday.

On Friday evening this week the Ladies' Aid Society and the firemen teams will compete in a "True or False" quiz at the Village hall and it is sure to be interesting. Next Friday evening teams from the Royal Neighbors and the business men will compete and on the following Friday the winning teams from these contests will meet. There will be other entertaining features and refreshments, so a good time is assured.

The speaker has already been secured for the Father-Son banquet on Feb. 22 and the banquet committee is at work.

Basket social, dance and cards at the Sand Lake hotel. Dancing and cards are free, but ladies, bring your baskets, and, gentlemen, if you get hungry when you see delicious food, come prepared to buy one of these baskets. Feb. 3rd is the time, party is sponsored by the Sand Lake school, Mrs. Lena Eckdahl, teacher.

The Erwin Barnstable family is now out of quarantine for diphtheria, and Virgil Sonnenberg and Shirley Solberg are in quarantine with whooping cough.

Mr. and Mrs. Fred Hamlin were pleasantly surprised at their home Friday evening when a few friends came in to help them celebrate their thirty-fifth wedding anniversary.

Mrs. Harriet Ballenger is in the hospital in Waukegan, recuperating from an operation last Saturday and is doing nicely.

Mr. and Mrs. Z. Zenor, J. Van Buren and Mr. Solberg made a business trip to Milwaukee last Friday.

Mr. and Mrs. Ralph McGuire of Millburn visited at the Richard Whitaker home Friday evening.

Mrs. Anna Pierce of Chicago is a guest of her niece, Mrs. Frank Hamilton, for a few weeks.

John Nader, his sister, Mrs. Rose Belek, and Carl Nader visited Mrs. Anna Belek at Marengo last Saturday.

Mr. and Mrs. Carl Reinebach drove into Chicago Sunday afternoon and were snowed out there until Monday evening when they returned home by train.

Mrs. Daisy Riney is visiting her granddaughters in Chicago for a few weeks.

Mr. and Mrs. Edward Leonard went to Highland Park last Thursday and will visit friends there for a week or two.

How Men Would
Dress Women

Rudy Vallee likes his women on their toes, but he doesn't want the toes to show. He likes high heels, but not toeless sandals. Is a sucker for large hats and satin.

Charles LeMaire, who designs costumes for stage and screen leans heavily toward the romantic. Eddie Duchin likes high hair do's, exposed ears, low cut evening gowns—but no orchids.

Walter Huston says the best dressed women wear simple clothes. James Montgomery Flagg, famous illustrator who should know, says women who have sex appeal should dress to it 200 per cent.

And so it goes. WOMEN'S DAY Magazine asked eight famous men how they like women to dress, and those are some of the replies reported in the February issue.

Vincent Price likes crazy hats, extreme clothes; and says no woman should wear slacks except Hedy Lamarr. Guthrie McClintic, famous producer and married to one of the theatre's best dressed women, Katherine Cornell, says the only answer to being well dressed is the answer to the question, "Does it look all right on me?"

Production of Plate Glass
Prior to 1850 almost no plate glass was produced in this country. Several factors at that time prevented development of such an industry. There were few skilled glass makers. The foreign producers were already firmly established in the market. Transportation of such a product was costly in America because of the lack of good roads.

BASKET SOCIAL

GRASS LAKE SCHOOL

Auspices of P. T. A., for benefit of Children

Friday, Feb. 10 8 p. m.

Please attend and bring your basket 500 - pinocle - banco will be played. A good time for all!

EYESTRAIN and
EYE PAIN

From the close interrelation existing between the eyes and the rest of the body, it is of prime importance that the eyes are used correctly because EYESTRAIN may cause severe headaches, temporal, frontal, back of head and neck) digestive, and nervous disturbances, such as constipation, indigestion, insomnia, restlessness, dizziness and tenacious.

CREOSOTE-TREATED POSTS LAST YEARS

Open-Tank Handling Proved Only Practical Way.

By R. E. Ford, Forester, Colorado State College Extension Division, WNU Service.

Treatment of fence posts increases their years of service from 3 to 10 times their period of usefulness when not treated. It has been proved by 20 years of tests made in co-operation with the U. S. Forest Service.

Of five different methods of treatment tried, the open-tank creosote treatment proved to be the only practical one. The bark as well as the thin layer of corky inner bark should be removed from timber to be treated as fence posts. The posts should then be piled in the open and allowed to dry thoroughly before they are treated.

The open-tank creosote method of treatment starts with the heating of dry posts in creosote to a temperature of 200 degrees Fahrenheit. Posts of 3 to 4 inches in diameter at the top should be kept at this temperature for one and one-half hours. Posts 5 inches in diameter at the top should be kept at this temperature 2 hours.

At the end of these periods the posts should be transferred immediately to another tank of cold creosote and allowed to cool in that tank. It is necessary to treat only the lower part of the post, about 30 inches, which would include 9 inches above the ground line after the post is set.

The college and similar other tests show such treatment will increase the useful life of an ash fence post from 7 years, the lifetime of untreated ash post, to 25 years; cottonwood posts from 4 years to 27 years; lodgepole pine, commonly known as native white pine, from 3 years to 30 years; honey locust posts from 12 years to 30 years; Englemann spruce posts from 4 to 23 years. It is not necessary to treat red cedar posts, for these untreated posts last about 30 years.

Right Kind of Feed for

Layers Aids Production

It's the right kind of feed that the bird eats in addition to what she needs to maintain her body, that can go into making an egg. And eggs pay for the feed that goes both into production and maintenance.

A good ration for a hen must be palatable and highly digestible. Where the daily allowance is about equal parts grain and mash, advises a writer in *Hoar's Dairyman*, consider getting the variety mentioned below:

Grain, at least two kinds—40 per cent.

Ground feeds, at least four kinds—30 per cent.

Animal feeds, at least one kind—10 per cent.

Green feeds, large a variety as practical—20 per cent.

It takes about 24 pounds grain and mash daily to maintain 100 four-pound Leghorn hens in 50 to 60 per cent production.

The proportion of grain to mash changes with the season; in winter 12 to 10 pounds, in summer 8 to 10 pounds.

Cider Now 'Apple Juice'

Say good-by to good old cider. This popular-for-generations drink is doomed, according to specialists of the New York state agricultural experiment station. The reason is not a new form of prohibition, but the development of a "streamlined" method of juice extraction and preservation. The modern process is credited by the experts with yielding a product so superior to old-fashioned cider that fruit growers are being advised to discard the old term and label the new product as "apple juice." Equipment for the new process, designed to replace the old type cider-press, can be constructed on the farm at a small cost, experts at the station report.

Good Scratch for Layers

A good scratch for the laying flock can consist of 200 pounds yellow corn, 100 pounds wheat and 100 pounds oats. A good standard mash ration for the laying flock, says a poultry authority, contains: 100 pounds ground yellow corn, 100 pounds bran, 100 pounds middlings, 100 pounds ground oats, 100 pounds meat scrap, 35 pounds alfalfa leaf meal, 5 quarts cod liver oil, and 3 pounds of salt. If you have milk before the flock at all times, you may reduce the meat scrap by one-half. Provide oyster shells and grit at all times.

Cleaning Teeth of Horses

Usually it is not necessary to clean the teeth of horses and mules after using the dental float. If a pull of water is placed before the horse he will usually rinse his mouth satisfactorily, or if you want to be sure that the material removed from the teeth is washed from the mouth you may do this with a two-ounce dose syringe filled with water, or with any other arrangement that will get water into the mouth and let it run out again.

Lights of New York

by L. L. STEVENSON

Advertising: Sandwich men run pretty much to type, that is in the way of equipment—two boards and cards to hand out. Occasionally there is variation. For instance, that old man who parades Forty-second street doing publicity for a pants-to-match establishment. As he comes toward you, his sign is topped with a white man. Going away from you, the man is colored. It remained for Bill, however, driving away up on Broadway, to discover something unique. The sandwich man had the usual boards. But instead of carrying cards, he had a portable radio which was playing loud and strong. The light changed before Bill could tell whether he was attached to his employer's establishment with wires but at any rate, he attracted a lot of attention. And what was he advertising? You'd never guess—a radio store.

Controversy: Whether to do the hair up or down has split the fair sex into two factions. It seems that Hollywood's stars refuse to pile their hair on top of their heads and that recently 60 of the New York's smartest debbs, gathered at a luncheon with their hair down. Those who argue against the hair up hold that it lives an older appearance and that no hair fashion in the last decade has been more flattering to a woman than the "casual coiffure," which falls in soft curls at the nape of her neck. And so despite the dictates of a fashion which says, up, one of the town's big department stores advertised that "hair up is out." As for me, I'm neutral. I can't forget the sad fate of my campaign against red fingernails—a campaign that came home to roost.

Pictorial: Years and years ago, a young photographer started in business in Yorkville. An expert and conscientious workman, he specialized in children. He began with baby pictures and went on up through the years. Then came wedding pictures and next pictures of children of those whom he had pictured as children. He's now working on the third generation. Having kept specimens of the work he has done, his studio is now a pictorial history of that section of the city.

Grim: There have been only seven electrocutions at Sing Sing prison during the last year. This is a record; over a nine-year period the average number has been 10 each year. The present low may or may not indicate a falling off in crimes for which the sentence is death. But it does indicate a falling off in the income of Robert Elliott. The state executioner is paid \$150 each time he throws the switch.

Useful: Mrs. Louise Hamer told me of the woman who got on a subway train at an uptown station with a big bass viol. The doghouse or rowboat, or whatever swing musicians call it, was in a case of course and in the case were two pockets. After some trouble, the woman found a seat and propped the bass violin beside her. Then she opened the bottom pocket and took out knitting needles and yarn. All the way downtown, her needles flew. And Mrs. Hamer never did learn what she carried in the other pocket in the bass viol case. But she believes it might have been her luncheon.

End Piece: New York color scheme as painted by Andre Baruch: Skyscraper gray, taxicab yellow, Union Square red, greenhorns, blues singers, the Great White Way and that well-known dark brown taste. To which might be added the Wall street gold and Park avenue purple.

© Bell Syndicate.—WNU Service.

Allied Memory Bell in

Verona, Italy, Recast

VERONA, ITALY.—A bronze bell cast from the metal guns of the Allied armies, which for several years has rung the daily sunset signal at Roverto in memory of the dead of the World War regardless of nationality, has been recast in a Verona factory after developing a flaw.

During the recasting gold and silver objects donated by the governments of 14 former belligerents and by a large number of individuals were dropped into the liquid metal. The new bell, which is larger than the original and stands 9 feet high, will soon be sent back to the historic castle at Roverto to resume the memorial sunset signal.

FARM TOPICS

WELL-FED LAYERS PRODUCE HEAVILY

By C. O. Dossin, Poultry Extension Specialist, Pennsylvania State College, WNU Service.

Flocks of White Leghorns laying 50 per cent or better should consume at least 25 pounds of feed per 100 birds daily at this season of the year.

Size of bird, type of house, heated or non-heated, rate of production and use of lights are all factors which must be taken into consideration when figuring feed intake. Unless birds eat large quantities of feed they cannot maintain body weight and produce heavily.

Some poultrymen make a practice of feeding their birds all the scratch feed that they will eat at night and about half that amount in the morning. Fresh mash is usually fed each day. Increased feed intake can usually be obtained by stirring the mash in the feeders with the hand each time a trip is made through the building. The use of a fleshing mash or fleshing pellets at noon each day will also increase total feed consumption.

Some poultrymen make a practice of dabbing paint on the plumage of a few birds so they can be readily identified. These birds are then weighed at frequent intervals so as to keep a check on the weight of the flock.

Good Care and Feeding

Thwarts Shipping Fever

Greater protection during shipment and careful management immediately after live stock arrives on the farm will lighten losses from shipping fever, says Dr. W. L. Boyd, Missouri university farm, veterinarian.

En route to the farm, either by truck or train, live stock is subject to many hazards—irregular feeding and watering, and bad weather among them. This applies especially to young stock, which may suffer serious loss in vitality. Regular feeding and watering plus protection against the weather will make the stock less likely to contract the fever.

Care and feeding of the animals once they are on the farm is the second important "ounce of prevention." Feed them a balanced ration, and don't attempt to get them on full feed too soon, cautions Doctor Boyd.

The use of vaccines and serums for the prevention and cure of shipping fever should be attempted only by trained veterinarians. To expect favorable results from vaccines, they should be administered soon after the animals arrive.

Houses Need Litter

Litter serves a triple purpose in the laying house. It serves to keep the floor warm; it helps to keep the house dry, and it provides material in which the birds can scratch. It is therefore necessary to have the floor littered for the pullets. The most satisfactory litter is highly absorbent and will not pack. Various materials are used such as straw, peat, and oat hulls. These materials are placed on the floor of the poultry house to a depth of about 2 inches; when straw is used it should be applied to a depth of 6 to 8 inches.

So Beat Their Wings
The wings of the tiny humming bird will flap as many as 200 times a second while in flight, but that rate is greatly decreased for larger birds; sparrows, for instance, do 13 strokes a second and the pelican has been clocked at only one and one-sixteenth strokes.

Coffee and Tarts Win All Hearts On St. Valentine's Day!

The fairest of fare, fit for any king, is fragrant and steaming hot coffee with heart-topped cherry-filled tarts for St. Valentine's Day. The tarts are dainty and delicate, but the modern queen knows well that the coffee pot holds the key to any man's heart.

So get your man with coffee on St. Valentine's Day, for you can't lose with these winning rules:

Use Enough Coffee: One heaping tablespoon of coffee to each cup of water is the most popular proportion.

Make Coffee Fresh Always: Never reheat coffee; serve it fresh and hot.

Always Scald The Pot: Before using, the coffee pot should always be rinsed in boiling water.

Keep Coffee-Making Equipment Clean: Always wash your coffee-making equipment with fresh clean water—never in your dish water.

Tasty accompaniments: Topped with whipped cream (or less cream if you prefer), the tarts are made with the following recipe:

Valentine Tarts (Pastry)
1 1/2 cups flour 1/2 teaspoon phosphate baking powder
4 tablespoons butter 1/2 cup water
2 tablespoons lard 1/2 cup water
1/2 teaspoon salt
Mix dry ingredients; cut in fat with knife or spatula. Do not over mix. Add just enough water to combine ingredients; work lightly together with a fork until dough is formed. Roll on floured board to desired thickness. Line pastry shells and "crimp" edges. Cut hearts with cutter and bake on top or separately, then drop on the finished tarts.

(Filling)
1 can cherries 2 thin slices lemon
1/2 cup juice cut in quarters
2 tablespoons sugar Small unbaked pie shells
2 tablespoons cornstarch
Sprinkle pie shells with half the cornstarch and sugar mixture. Place 1 lemon quarter in each tart shell and pour in cherries and juice. Sprinkle with remaining cornstarch and sugar. Bake at 450° F. for 20 minutes. Serve hot with ice cream or cold with whipped cream sprinkled with chopped pecans, if desired.

PATIENT TELLS OF HER FEELINGS AS HER MIND RETURNS

Quick Results Are Obtained by
Use of Injections of
Metrazol.

MERIDIAN, MISS. — Shocked from insanity, a woman released from the East Mississippi state hospital here recalls with clarity the delusions she felt in that gray world. The woman who prefers to remain anonymous, is one of 15 persons believed cured by the "shock treatment." It consists of convulsions and a 55-second coma induced by injections of Metrazol, a comparatively new discovery.

The 11 women and four men thus far released are part of a group of 62 treated. One of them had been insane for 20 years. Others of the group may be released soon. Only two failed to react at all, and only seven responded slightly. No deaths from the treatment have occurred, physicians said.

Looking back, the woman remembers that it was after the third injection of Metrazol that she began to recognize members of her family. Then she said she realized for the first time that she had been insane. She realized her position and saw her companions as they were. She also knew the reality of insanity and the possibility of her being cured.

Feared Poison Food.

This woman remembers refusing to eat anything not wrapped in cellophane for fear of being poisoned. At one time she said she thought if anybody touched her they would die.

Describing the treatment by Metrazol injections, she said: "The first time I thought they were killing me, that they were planning to put me out of my misery. I hoped I would die. But after the third shot I understood what they were doing and I was glad. I prayed to live."

Great care must be used in its administration of the shock treatment, according to Dr. William J. Cavanaugh, staff physician and psychiatrist. The patient must not have any organic disease, acute infection or heart trouble which would make the shock too dangerous.

Dr. R. L. Rhymes, staff physician and surgeon, told of the thorough physical examination and correction of defects by surgery, the building up by diet, hydrotherapy and electrotherapy given patients before they are given the treatment.

Other Treatments Used.

"We are using the treatment, which is, of course, only one of the forms of treatment in this hospital, with encouraging results with the schizophrenic patients," Supt. John S. Hickman said.

This group includes the "split personality" class. The treatment has also proved effective in treatment of nearly all forms of insanity except those having organic causes or in which the brain tissues are injured or destroyed, Doctor Hickman said.

Describing the treatment, an educated patient, improving under the series of shock but still undergoing the Metrazol treatment, said:

"It's indescribable. I imagine a deadly shock of electricity is like it. It is like being stifled. It goes up my arm and then around my heart and in my chest. Then I lose consciousness. It knocks me out completely. It kills me. That's what it does. I can feel my eyes jerk and my jaws open and that's all I know."

"When it is over, I sleep awhile and when I wake up I can't remember anything. Gradually it comes back to me, but it is blank from the time of the shot until I wake up."

Rugged Individualist Is Fined by English Court

BOURNEMOUTH, ENGLAND.—Apparition has cost Abraham Richard Hewitt, local hardware merchant, \$32.50.

Hewitt deals in metal garbage cans, but for his own home he used a wooden box, thus violating a local ordinance. For 20 minutes the magistrate tried to persuade Hewitt to reconsider his firm stand and use a metal garbage can.

"Don't you ever change your mind?" the magistrate asked of Hewitt.

"No, sir," he replied. "My name is not Chamberlain. You can't Hitlerize me!"

As this was the third time that Hewitt was summoned for the same offense, he was ordered to pay \$15.25 on the spot and \$1 for each day he had violated the law.

Late for Trip to Gallows; 'So Sorry'! Commuted

SYDNEY, N. S. W.—Sentenced to death for shooting a tribesman in New Guinea, two native policemen almost missed the boat that was to take them away to be executed. They arrived breathless as it was about to sail, and apologized profusely.

The two were officers of the New Guinea native armed constabulary, and had killed the tribesman when they found them suffering after a skirmish.

When the two arrived at Port Moresby, Papua, where they were to be hanged, they learned their sentence had been commuted to imprisonment.

Oysters One Foot Long

Oysters a foot in length, patriarchal lobsters six feet long and crabs a foot long and six inches across were commonplace when the white man discovered America, says the American Wildlife Institute. The massive crabs, found in the waters of Virginia, were so large that one of them furnished a meal for four men.

Hog Not Native of America

According to authentic records, Columbus brought over a few breeding hogs on his second voyage to Cuba, in 1493. Great Britain had hogs before this, however, and the United States and Great Britain have produced all the leading breeds in recent times.

FARM TOPICS

HELP HENS BOOST WINTER EGG YIELD

Adequate Quarters, Rations Are Most Important.

By Dr. W. C. Thompson, Poultry Husbandman, New Jersey Experiment Station, WNU Service.

The old idea that high egg yields are unusual and difficult to obtain in winter has changed with the times. A yield of 50 per cent or greater is now a normal and requisite part of present day egg farming.

It has been firmly established that winter yields are partly a matter of inheritance of precocity, or early starting tendencies, partly a matter of surrounding well-bred birds with comfortable and adequate winter quarters, and partly a matter of furnishing those birds with well-balanced forcing rations. Winter season egg prices are generally relatively high and there is comparatively less competition from remote sections of the country. Poultrymen should attempt, therefore, to obtain high yields in this season. A more rigorous selection of the individuals housed and kept over winter is advisable. It is not a time when egg farmers can afford to keep boarders in their flocks, that is, hens which eat but do not lay. Adopt a high standard of quality for the layers now in winter quarters. Sell or eat the rest. Having done this, go over the laying quarters, making sure that they are clean, sanitary, draft-proof, comfortable, and that they provide sufficient room.

Crowded flocks are under a handicap. Uncomfortable birds rarely eat normally or lay heavily. Environment is an important factor in obtaining winter egg yields, particularly since outside weather conditions are so apt to fluctuate severely from day to day. The closer one can keep interior poultry house conditions normal, the better are the chances for prolonged, continuous, high egg yields.

Poultrymen must see to it that every layer has an unhindered opportunity to eat grain-mash and mash and drink water whenever she desires. Inadequate hopper and water fountain spaces and crowded conditions frequently make it impossible for otherwise good birds to perform satisfactorily as egg producers.

Greater Feeding Value In Dry-Rendered Tankage

Dry-rendered tankage is more palatable, has higher quality of protein and greater feeding value than wet-rendered tankage. It also has higher quality protein and greater feeding value than meal and bone scraps. Wet-rendered tankage and meal and bone scraps, however, may be fed satisfactorily by mixing them with vegetable protein supplements. Such additions do not improve the feeding value of dry-rendered tankage, says E. F. Ferrin, division of animal husbandry, University Farm, St. Paul.

When linseed oil meal or soybean meal furnish nutrients more cheaply than dry-rendered tankage, a mixture of 25 per cent dry-rendered tankage and 75 per cent linseed meal or soybean meal may be fed. It is advisable to feed a mineral supplement to supply calcium when such a high proportion of vegetable protein is fed.

Twilight for Hens

A new idea in artificial lighting for hens comes from Mr. and Mrs. William F. Ahlgrim, successful poultry keepers of Valparaiso, Ind., who have been turning out 500 eggs a day and selling them at top prices, according to Country-Home magazine. The Ahlgrims use electric lights to prolong the feeding day, but found that suddenly turning them off on dark-winter evenings made it difficult for the hens to find the roosts. Now they switch on first a string of dim lights, which produce an artificial twilight. Ten or fifteen minutes later, after the hens have "retired," these lights are switched off.

With the Agriculturists

California farmers have three times as many autos as radios.

There are now more than 25,000,000 milk cows in the United States.

Supply of feed grains per grain-consuming animal is the largest in 12 years.

Lightning rod joints do not need to be soldered, but they should be properly clamped together.

The time to eliminate drafts in barns is before they cause damage to live stock.

Dairy cattle need a higher protein ration during the barn feeding period than they do in the summer time.

During winter months it will pay to go over every machine carefully and tighten loose bolts, oil and grease moving parts, replace broken or worn parts and paint the woodwork.

Finds Secret to Seeing in Dark

Nutrition Chemist Attributes Faculty to Drinking Cod Liver Oil.

TUCSON, ARIZ.—A new use has been found here for cod liver oil—drink it and you can see at night like a cat.

At least that is the result of experiments of Dr. Margaret Carmak Smith, nutrition chemist of the University of Arizona, in attempting to cure "night blindness," a peculiar condition that develops in the eye from a lack of regeneration of "pigment purple," a vitamin A substance.

The blindness can be corrected in children by use of cod liver oil, Doctor Smith said.

Conducting a test of 127 undernourished children here for 10 weeks and many others during the last year, Doctor Smith said she had successfully corrected night blindness by daily doses of the oil.

Children Like Natural Oil.

The test also had its reverberations in the laboratories which furnished the cod liver oil, Doctor Smith reported. The children liked the natural kind better than the highly refined, odorless type which has been developed at the laboratory.

Doctor Smith started out to prove whether a lack of vitamin A in Mexican families of the low wage bracket was reflected in the children's vision, growth, susceptibility to disease, especially of the respiratory tract, and breaks in health, such as tuberculosis.

The answer to all these questions was "yes," Doctor Smith said.

Simple Test to Perform.

Despite its importance, the experiment was very simple to perform. Doctor Smith, with a biophotometer at hand, placed each child in a dark room until all the "visual purple" should have regenerated in the eye. Then a bright light was flashed in the child's eyes for three minutes. Then the child was placed in a dark room for the regeneration of the "visual purple" and its rate of regeneration tested.

Doctor Smith found that when she took over the 127 children 30 per cent had a normal eye, 13 per cent were borderline cases and 57 per cent were subnormal. Weight apparently had nothing to do with it, as only 11 per cent were underweight.

After the 10 weeks of the cod liver oil, another test was made. Two-thirds of them reached normal night vision and the other third had improved.

In a group not receiving the cod liver oil, Doctor Smith said no improvement was noted.

Mineral Food on Ranges

For Cattle Being Tested

LAS CRUCES, N. M.—The animal husbandry department at State college is carrying the laboratory to cows on the range in a relatively new kind of experiment which will last for three years.

The work is intended mainly to find out if range cattle get enough calcium and phosphorus from normal range feeds, by determining the amounts of calcium and phosphorus in the blood.

Work of this nature has been done on dairy cattle, but results are not applicable to range work because it is impossible to get normal range data from feed lot tests.

Two separate groups of cattle are being used. One is quartered on a natural range pasture, the other with a mineral supplement. Results of this experiment should be valuable in determining the value of supplemental mineral feeding for range cattle, college instructors said.

Range work of a similar nature is being done in Arizona and South Africa, school officials said. "Our experiment is somewhat different because they bring the blood samples into a laboratory before earing for them," a spokesman said.

Mobile Phone Exchange

Starts Work in London

LONDON.—The postmaster general has inaugurated a new mobile, automatic telephone exchange. Two years ago the postoffice introduced the first mobile postoffice to afford postal facilities at shows and other outdoor events.

The new exchange on wheels is the first in the world. It can be used for restoring telephone service if the ordinary exchange is out of action by fire or other calamity. It can also be used where unavoidable delay has occurred in completing a new exchange.

The unit is self-contained, with a petrol engine which automatically recharges the batteries as required. Rain water on the roof is collected and used for cooling the engine. The capacity of the unit is 100 circuits.

Britons' Teeth 'Rotten'

LONDON.—The British are a people of bad teeth, according to their health minister, Walter R. Elliot. "The teeth of this country are bad," he said. "You might almost say they are rotten."

Bicycle Safety Taught

TOLEDO.—Bicycle safety demonstrations at all city playgrounds have been held because accidents have doubled in the past five years.

HICKORY

Nels Nielsen, Sr., is on the sick list. Miss Caryl Tillotson spent Saturday afternoon and Sunday with her cousins at the King farm. They celebrated the birthday of Barbara Lange on Sunday. She was two years old on Friday, Jan. 27.

Mr. and Mrs. Gerhardt Lange visited the H. A. Tillotson home Sunday evening.

Mr. and Mrs. Emmet King visited relatives in Chicago from Friday afternoon until Sunday afternoon.

Will Thompson was a Zion visitor on Tuesday, Jan. 24.

Mr. and Mrs. Max Irving and son were Sunday dinner guests at the home of Mr. and Mrs. George Olsen in Wanagan.

Rev. and Mrs. Melvin Frank of Millburn called at the Will Thompson home Sunday afternoon.

Harrie Tillotson visited S. W. Ames at Gurnee Tuesday of this week.

Arthur Hunter called on his grandmother, Mrs. Pickles, Tuesday evening of this week.

Mr. and Mrs. Philip Gould, Norman and Vivian of Grayslake, visited the Will Thompson family Sunday afternoon. Norman also visited his friend, Wilson King.

Does Not Protect Inventor

The phrases "patent applied for" and "patent pending" stamped on manufactured articles do not protect an inventor. The phrases are intended merely as notices to the public that application for a patent has been filed. The law makes no provision for the use of these terms. In the eyes of the law they afford no protection to the inventor, except so far as they may be a means of establishing a claim of priority in case of litigation in respect to the patent. The right to exclude others from making, using and selling a device does not exist until a patent has been granted.

Saluki Has Oldest Pedigree

The saluki, a hunting dog that has been bred in Arabia, Persia and Egypt for more than 6,000 years, has the oldest pedigree in existence, sometimes dating back for a thousand years. They are never sold, says Collier's Weekly, only presented as gifts, by their Arab owners.

Water Turns to Wine

Parents are the explanation of the modern miracles which take place annually in the region of Halle, Germany, in that water there has the habit of turning to wine. As St. Martin, whose day is celebrated there, is credited with being able to change water to wine, children fill jars with water and command him to perform the miracle. The peasants of the region are fortunately not above practicing an innocent fraud. They secretly retil the jars with wine and let the children discover that the saint has answered their prayers.

Many Places Have Spanish Names

The American Language says: "According to Harold W. Bentley, no less than 2,000 American cities and towns have Spanish names and thousands more are borne by rivers, mountains, valleys and other geographical entities. He says that there are more than 400 cities and towns of Spanish name in California alone. They are numerous all over the rest of the trans-Mississippi region and, curiously enough, are even rather common in the East."

An Extinct Mammal

A glyptodon is an extinct mammal, fossil remains of which are found most frequently in South America. Living in the Tertiary period, it resembled the tortoise in structure, having an armored back and tail.

Had Spanish-Speakin' Ancestry.
There are about 3,000,000 persons with Spanish-speaking ancestry in the United States.

Harmful Noise

Noisy work performed in a confined space is more harmful to the ears than if done in the open air, says Hygeia, the Health magazine.

No Soda in Soda Water

Soda water, as a rule, contains no soda, as the name would appear to suggest, but is just plain water super-saturated with carbon dioxide.

Painted Butterflies Fly Far

Painted female butterflies fly from England to Africa, more than 1,000 miles.

Large Auction

3 miles east of Russell, 9 miles east of Antioch, on State Line Road
TUESDAY, FEBRUARY 7

Commencing at 12 o'clock sharp

28 CATTLE

High Grade Holsteins and Guernseys, Bangs and T. B. tested.

7 fresh; balance milking good; calves; 2 Holstein bulls

4 GOOD HORSES

FARM PRODUCE

12 tons cob corn; 10 tons alsike clover hay; 20 tons soybean hay

30 tons silage 20 tons shredded fodder

COMPLETE LINE MACHINERY

Including F-20 Farmall tractor, good condition, with cultivator attach;

plows; cultivators; disc; all hay tools; spreader; feed grinder; wagons;

McCormick double unit milking machine, complete with motor; 18

milk cans; hundreds of other articles.

Remembering Good

IF WE are to go forward, fitted for the work before us, should we not be properly prepared? Instead of indulging the human tendency to look back sorrowfully or to think regretfully of the past, we must learn to think scientifically, keeping our consciousness ever true to God, good.

Meditation upon what in the past was good, reminds us that we should render an account of our present stewardship. Should we not recognize the many blessings we all too often take for granted? Since, as Whitlitt has said,

"That all of good the past hath had
Remains to make our own time glad."

Let us gladden each day by taking stock of "all of good the past hath had."

Allowing only the good to remain in our thought is a happy service, a grateful prayer of praise. Keeping in our hearts thoughts of the unchanging goodness and omnipotence of God quiet fear and brings new courage, joy, and peace into daily experience.

Knowing the allness of God, good, brings peace, and peace brings joy, and joy proves the presence of good. Remembering God's gift to mankind in the revelation of the Christ, and remembering the message of "on earth peace, good will toward men" brings about a purification of heart.

Mary Baker Eddy gleaned something of good from every one of her experiences. Out of her rich triumphs came her admonition (The First Church of Christ, Scientist, and Miscellaneous, pp. 149, 150), "Remember, thou canst be brought into no condition, be it ever so severe, where Love has not been before thee and where its tender lesson is not awaiting thee." The way to turn from scenes to memory's lane need not be learned through hard lessons. Only when we cling to grief, through selfishly do we miss Love's "tender lesson." Challenging every condition with the question, "What is Love's 'tender lesson'?" will turn our struggling into the giving of thanks to God.

The measure of our progress should be estimated, not by how much we know of Truth, but by how well we live and love it day by day, and by how much we express the spirit of good will toward others. A perfect rule for gracious and happy living is to remember God, good, all the time.

All thoughts that would keep out of our hearts love for God and man must be recognized as enemies to health, happiness, and holiness. Isaiah termed such insidious errors "other lords." Remembering good, remembering that God is with us, brings proof in our day also that those "other lords" are deceased; they shall not rise; therefore hast thou visited and destroyed them, and made all their memory to perish." (Isaiah 26:13, 14). How happily we go forward when "all their memory" has perished!

What is it, after all, that makes our days seem unhappy, with spiritual happiness always within our reach? Is it not that God has been left out of our thoughts, and that love has been crowded out of our hearts? The need of the hour is not that great happiness be brought into our day, but rather that the happiness which is spiritual be recognized, claimed, and shared. Some one has said that there are some in this world who have the gift of finding joy everywhere, and of leaving it behind them when they go. This is the touchstone of selfless happiness.

The art of true living is to discern and to embrace the good ever within reach. In order that we may discern and embrace the good within reach we must be mentally ready to accept it. Being ready mentally prevents us from grieving over the past or from hesitating on the threshold of tomorrow. To "give thanks at the remembrance of his holiness" is to eliminate fear, sorrow, lack, enmity; is to make "all their memory to perish." "Rememberance of his holiness" remembering God—is not this identifying ourselves with universal good?—The Christian Science Monitor.

Ship Island, Military Post
Ship Island in Mississippi was reserved for military purposes by the executive order of August 30, 1847. In 1861 the island was occupied by Confederate troops. In September, 1861, the United States naval forces took possession of the island. The present works on the island were commenced in 1862. Ship Island was used as a base for military operations in the gulf from that time on. It was sold in 1933 to the Joe Graham post, No. 119, of the American Legion.

Meaning of Name Merritt
The name Merritt, of Teutonic origin, means the same as the word merit, "deserving." Merritt Golly (d. 1916) took out more than 400 patents on inventions, many of them connected with printing machinery. He invented the Universal printing press and probably the long, narrow metal tray for holding type, called a galley.

Wrote 'Pledge to the Flag'
"The Pledge to the Flag" was written in the office of the Youth's Companion of Boston, in 1888, by James B. Upham of Malden, Mass., in collaboration with the editors in connection with a campaign to stimulate the patriotic sentiments of American children by flying the flag over every schoolhouse.

Wolverine Unafraid of Fire
The wolverine is the one animal that is not afraid of fire, as sportsmen in Canada's northland know to their sorrow. It will enter and rob a camp while the fire is burning brightly.

McNutt to Run

Paul V. McNutt, United States high commissioner to the Philippines and former governor of Indiana will leave his Manila post next Tuesday to return to the mainland and open his campaign for the 1940 Democratic presidential nomination. McNutt headquarters have already been opened at Indianapolis by his manager, Frank McHale.

Batista Travels

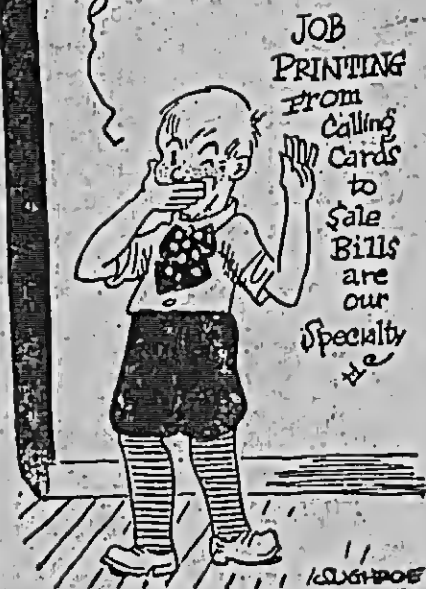

Col. Fulgencio Batista, "Strong man," and head of the Cuban army, arrives today at Mexico City for secret consultation with Mexico's Dictator-President Lázaro Cárdenas. Batista recently made a similar journey to Washington.

How Jumbo Was Killed
Jumbo, Barnum's famous African elephant, was killed on September 15, 1885, on the Grand Trunk Airline track, half a mile east of St. Thomas, Ontario. His keeper was leading him along the track when a freight train came up behind him and ran him down. Jumbo was injured so badly that he died in 30 minutes. His value was estimated at \$300,000.

Some Perfumes Harmful
Some perfumes have a harmful effect on certain individuals. When breathed in large quantities, says Collier's Weekly, many innocent odors, such as tuberose, magnolia and narcissus, produce headache, dizziness, convulsions and even epileptic seizures.

MICKIE SAYS—

ADVERTISING SHEETS, THROW-AYS, OR SHOPPING GUIDES ARE FREE BECAUSE NOBODY'D PAY FOR 'EM—BUT THEY WANT 'EM HOME PAPER AND ARE WILLING TO PAY FOR IT!

Three Musicas Learn Fate

The three surviving Musica brothers, who pleaded guilty of financial trickery in the McKesson & Robbins drug scandal, will be sentenced next Monday by Judge Murray Hulbert of New York federal court. A fourth brother, Philip Musica, alias F. Donald Coster, ended his life. Shown above, left to right, are George Musica, alias George Dietrich; Arthur Musica alias George Vernard, and Robert Musica, alias Robert Dietrich.

Yesterdays

48 YEARS AGO

In the Antioch News Files for Feb. 5, 1891.

C. Coon has sold the property he recently purchased of Charles Harden to L. J. Simons. The "Kernel" bought the property intending to erect his summer residence thereon, but the spot was not isolated enough to suit his fancy.

The Kenosha "hoodlums" are not in full sympathy with the Salvation Army now quartered in that city. Whenever the Salvationists go out on parade the youngsters evince their displeasure by storming their ranks with ancient eggs and brickbats.

Thirty of the hostile Brule Indians

that took part in the recent Indian "unpleasantness" are now at Fort Sheridan, and will undergo a six months' course of subjugation. They will be deprived of their lively pastime "ghost dancing" for six months to come and will go back to their reservation, if the government sees fit to let them, with a better opinion of their white brothers' military strength.

Property is advancing in value in this village, as much as \$50 on a single piece in two or three days. If this keeps on, poor people will have to take up their abode on some of the "lake front" reservations recently thrown open for settlement, when Summer again rolls around, and acquaint themselves to the sturdy roar of the festive bullfrog.

Mr. and Mrs. Mauc, of Bassett Station, welcomed triplets at their

house on Tuesday. Two years ago twins were born to Mr. and Mrs. Mauc.

Mr. and Mrs. Swenson of Wilmet were honored at a surprise party by Messrs. and Mmes. Charles Voak, Lem Voak, Gus Kruckman, Frank Thompson, William Bifton, Ed. Wright, Ed. Coulman, Louis Scherff, Rance Sholliff, Klyus Hegeman, William Sears, Fred Sabin, M. H. Tyrrell, Dr. and Mrs. Darby, Capt. and Mrs. Marsh, Mr. and Miss Carpenter, Mr. L. L. Owens and Miss Marsh, Mrs. William Faulkner, Mrs. F. J. Owen, Mrs. H. Hegeman and Mrs. E. Dalrymple.

From Wadsworth items: There is some talk of incorporating Wadsworth as a village.

30 YEARS AGO

Feb. 4, 1909

It was 16 degrees below zero on the coldest day of January, 1909, according to a weather report furnished by J. C. James, Jr., local weather man.

Miss Maude Brogan, formerly of Antioch, who has been bookkeeper for the Kenosha Home Telephone company for several years, has been named by Kenosha City Clerk Harrington as assistant city clerk.

Miss Grace Judd, daughter of Mr. and Mrs. Eli Judd, and Francis O. Barber of Kenosha were united in marriage at the Methodist parsonage in Waukegan last Saturday.

George Huber has leased the east half of the basement of his building to A. G. Watson for a cement block manufacturing plant.

Millburn items—Mrs. C. E. Denman, Mrs. W. G. McGuire and Miss Mary Eichinger attended the R. N. A. banquet at Waukegan on Thursday last.

15 YEARS AGO

Jan. 31, 1924

A total of 623 persons attended the farmers' institute at the high school on Tuesday.

The national commander-in-chief of the Daughters of G. A. R., Mrs. Mary Baker, was a guest at an installation held by the Antioch chapter Monday. New officers include Mary Runyard, Mary Watson, Dora Sabin, Erna Powles, Bessie Hillebrand, Nellie

Ziegler, Jessie Runyard, Anna Kelly, Katherine Darby, Harriet Davis, Drucilla Ferris, Amanda Cribb, Maude Sabin, Lottie Jones, Lenora Hughes. Antioch was shocked Tuesday morning by the sudden death of Charles Kelly, 57, who succumbed to an attack of heart trouble while riding on a Soo Line train.

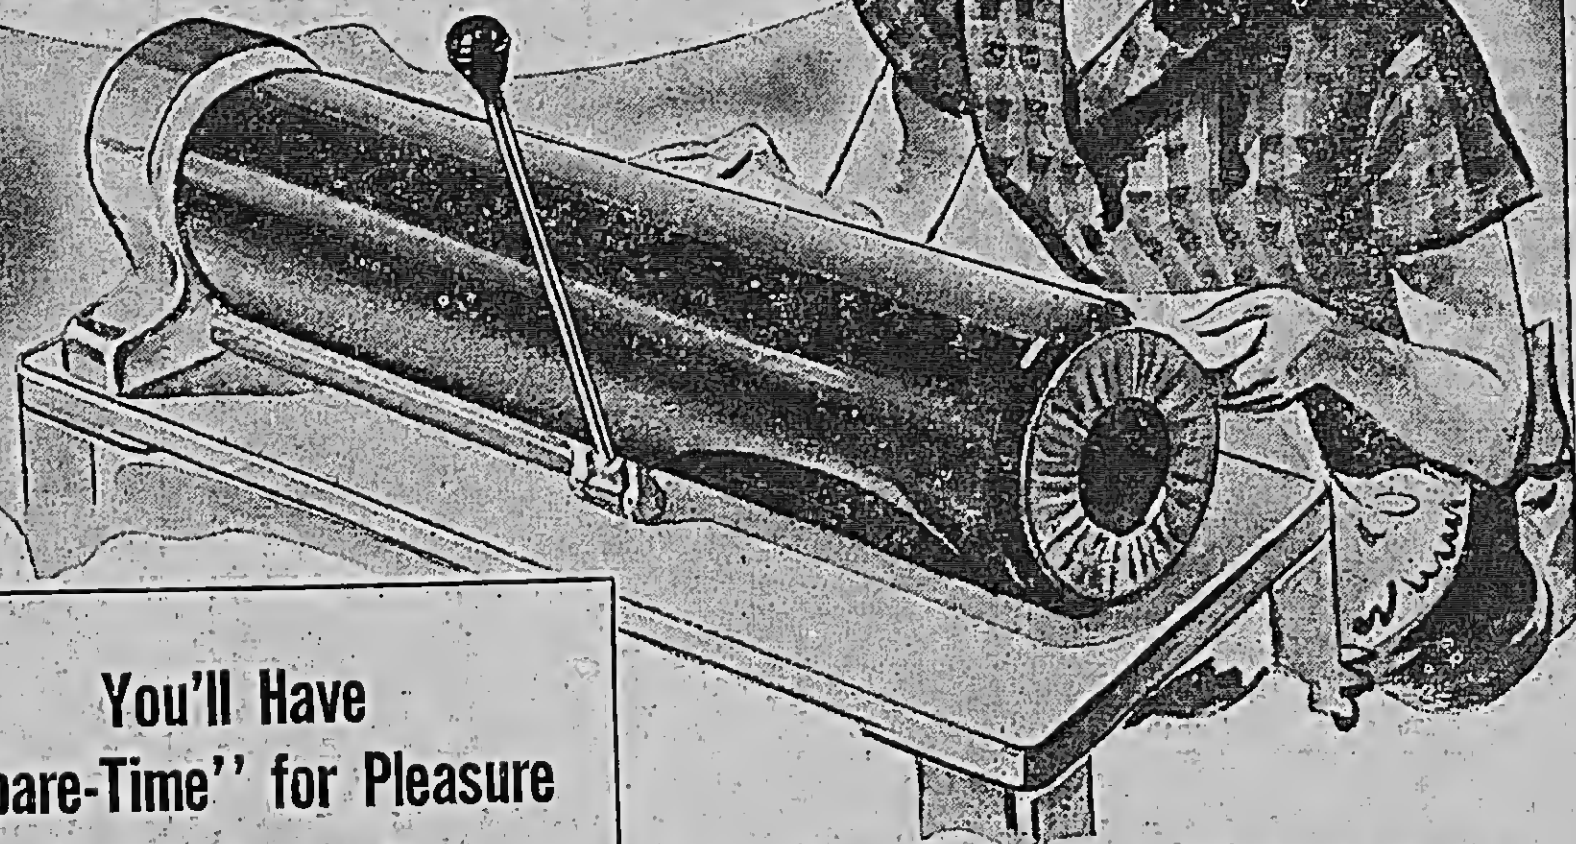

The intersection of Main and Lake streets was flooded with milk shortly before 8 o'clock Wednesday morning when the hobsled in which Will Lasco was carrying 13 cans of milk to the local creamery overturned when Will tried to make the corner on "high."

Elephants' Bones Seldom Found
It is estimated that about 2,000 elephants die each year in Africa, yet their bodies or bones are seldom found. Nobody has found out where the elephants go to die. There is a theory that they have an undiscovered "elephants' cemetery," but this is very unlikely. The most feasible theory seems to be that they crave water to drink when sick, go to the nearest river or swamp and become mired in the mud. If this is true, says Pearson's London Weekly, there should be some great stores of ivory on the bottoms of Africa's rivers and swamps after all these centuries.

Eggs Hatch in Eight Hours
Eggs of the lancelet, a small, fish-like animal, hatch in eight hours.

"Fast?... Easy?"
SAY-MY ELECTRIC IRONER
JUST CAN'T BE BEAT!"

You'll Have
"Spare-Time" for Pleasure
when you use modern
Home Laundry Equipment

Be done with Blue Mondays and Tedious Tuesdays! Do the entire week's wash easier and better—in double-quick time with modern Home Laundry Equipment. Modern Electric Washers, Ironers, and Water Heaters, together with plenty of good light, take the work out of washday. These distinct contributions to better living are easy to buy and repay you again and again with savings in time and work. Why not investigate the many fine values now being offered!

● "Take it from me—here's the way to do home ironing! It's so simple . . . so fast . . . so easy. Why, to my way of thinking, no woman can afford to be without a modern Electric Ironer. "Just think of it! Now I can do my entire laundry . . . sheets, towels, fancy dresses, even shirts—while I am comfortably seated. No more lifting and tugging. No more aching back and tired arms. My Electric Ironer does all the work . . . irons, steams, presses . . . and gives me better finished work than ever before."

"What's more, there's no trick to ironing this fast, convenient way! Why, in no time at all, any woman can learn to do even the largest sheets or sheerest frocks—like an expert."

Yes—hundreds of women are discarding old-fashioned ironing methods for a modern Electric Ironer. There are so many advantages that unless you've seen one of these modern Electric Ironers in action, you can't imagine how fast, convenient, and easy your home ironing can be. Why not come in and ask for a free demonstration . . . today!

ELECTRIC APPLIANCE DEALERS AND
PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS
350 N. Milwaukee Ave., Libertyville

'Eye for Freedom' Plea**For Convict Is Denied**

JACKSON, MICH. — Officials of Southern Michigan prison and state corrections department rejected the proposal of a 24-year-old convict to give up his right eye to a sightless man in return for his freedom.

The convict, Marby Underwood of Detroit, serving a 2 to 10 year term for obtaining money under false pretenses, offered his right eye because his wife was homeless and needed him. He said she was forced to sleep in all-night theaters.

In a letter to Warden Joel Moore, Underwood asked he be allowed to give the cornea of his eye to William Lewis, 28, a Canon City, Colo., attorney who needs one to restore his sight. Four Colorado convicts awaiting execution have refused to aid the attorney.

Grizzly and Two Women**Meet the Same Hard Luck**

RONAN, MONT. — Mrs. Charles Joyce and her sister, Mrs. Fred Owens, together with a grizzly bear, all played in the same luck.

The two women were driving alone when a grizzly, evidently losing its footing on a nearby hillside, came bounding down the hill and landed plump on the front of the car. The women had no firearms and the bear was too groggy to attack them.

So both went different ways, the bear in a rather zig-zag manner and the auto at high speed.

Pussy Ends Long Life**Of Ice Cream and Meat**

BURBANK, CALIF. — Pill, a 17-year-old pet cat of an apothecary, died here of dropsy. The cat's utility during its long span of life had consisted of chasing away stray dogs.

By a daily balanced diet of ice cream and beefsteak, the druggist had been able to maintain its weight for years at 18 pounds.

Boil Turns Sand to Glass
TAMPA, FLA. — Lightning as a glass-maker was exhibited here during a thunderstorm. A bolt of lightning struck a tree, ran down the tree and jumped from the tree roots to an underground telephone cable. Along the underground path the heat fused sand into a tube of glass.

Business Guides

By C. E. Johnston

Director, Business Training Schools,
International Correspondence Schools

IDEAS for improvement of a product or the operation of a business often come from employees. The prudent employer always is eager to learn of new ideas. He encourages his workers to make suggestions. There have been instances where a company has received and adopted suggestions without rewarding the originators in any manner. This leads to ill-feeling and sometimes even to serious labor trouble. Credit should always be given to employees when it is warranted. Employee loyalty will result.

Most forward-looking business owners and operators encourage employees to improve themselves by study. Thousands of firms recommend certain courses of training and pay part or all of the cost. This interest in the employee shows profits for the employer because it results in ambitious, industrious workers always being available to fill positions which require an unusual knowledge or exceptional skill. There is no substitute for a trained worker or office employee. In these days the employer cannot devote the time necessary to train employees for advanced positions. Instead, he encourages them to train themselves by study.

Higher positions are always in the reach of those qualified to fill them. The employee who acquires ability to fulfill more than his present duties, already has started on the road to success. If there is any "secret" of success, it is to be prepared when an opportunity comes. The wise business executive knows the persons in his organization who are capable of holding better jobs. The wise employee makes sure he is capable of holding a better job by training himself while occupying his present position.

An Architectural Mystery
Medieval streets of shops in Chester, England, founded by the Romans, are really two-story promenades, an upper gallery of stores making an arcade over the path for other stores on the street level. Various theories have been advanced to explain the architectural mystery, but none generally accepted.

DEEP-SEA DIVER REMINISCES OVER ODD EXPERIENCES**Wife Worries Over Wet Feet When He Goes on Trips For Groceries.**

FAIRPORT HARBOR, OHIO. — How deep-sea divers lasso fish—just for the fun of it—was told here by Harry Reinhartsen, working on the old E. G. Mathiott, sunken ship in Fairport harbor.

"Yes, we used to catch them that way down by Miami," the diver said, polishing the glass of his helmet. "This certain species of fish is very lazy and we would sneak up on them with loop of wire, slip it over their tails, and a helper up above would hoist 'em up to the boat before they knew what had happened."

The fish weighed from 50 to 80 pounds and were good eating, Reinhartsen said. He and another diver, indulged in the lassoing sport while working on a sewer project—"during recess, you might say."

Reinhartsen, who is 58, was the diver who removed the first body from the submarine S-51, which was rammed and sunk in Long Island sound. Every man died at his post and Reinhartsen worked in 139 feet of water during salvage operations.

Worked on S-48 Also.
He worked also on the S-48, which sank while on a trial run off Bridgeport, Conn., in 75 feet of water. All of the crew escaped by coming out a torpedo tube in the bow, so the diver was sent down with an electric torch to cut a hole in the bottom to permit air to be pumped into the hull to raise the sunken vessel.

"I got a bad case of 'bends' on that job," the veteran diver said. "It wasn't that I was working so deep as that I stayed down too long and ascended too rapidly. 'Bends' are caused by gas bubbles forming in the blood under the terrific pressure. Nothing happens until you come up. Then the gas bubbles out of the blood, like a bottle of pop just opened. This causes painful cramps—or death if they get to the heart."

One of his jobs, Reinhartsen was sent to the bottom of Lake Michigan—210 feet down—to inspect the wreck of a ship suspected of having been sunk for the insurance.

Since the pay of divers is proportional to the depth at which they are forced to work, he receives \$136 a day for his efforts, and as he could work only 20 minutes daily, because of the pressure, his pay figured to about \$408 an hour. Actually it was considerably less, because, after working only 20 minutes at this depth, Reinhartsen had to spend three and one-half hours in ascending to the surface by degrees to avoid the "bends."

Testimony Wins Suit.

On the strength of his testimony that the seacocks in the bottom of the ship had been opened, the insurance company won a suit, releasing it from liability.

Reinhartsen is married and says he has his wife "pretty well trained" and accustomed to the risks he undergoes. However, on one job on which he was required to search a reservoir near Jersey City for the body of a fisherman in 110 feet of water, his wife became worried. One diver had been killed on the job—sucked into a water intake at the bottom.

"That got my wife," Reinhartsen said. "She called me up at quitting time one night and begged me to leave the job. But I went home and talked to her several hours and convinced her that it was all right. Next day I went down and found the man after about 10 minutes."

"Funny thing," he said, "she worries more now when I'm out getting the groceries or something. Afraid I'll get my feet wet—maybe get pneumonia, I guess."

Vets Veto Judge; Insist**On Being Sent to Jail**

TORONTO. — "Guilty," said two Toronto men, charged in police court with fishing unlawfully with a net in the waters of the lagoon at Toronto island.

The men, both war veterans, pleaded that they were unemployed and had no other means of obtaining food for their families.

"Nevertheless, the law is the law," said Magistrate Robert J. Browne, himself a war veteran. "I'll have to impose a fine of \$10 or a jail term."

"Can't pay," the accused men chorused. "We'll have to serve the time."

"No," the magistrate replied, "you don't have to. I'll pay your fine myself."

"Not a chance," the accused men insisted. "We won't agree to that. We can take it."

"All right," Magistrate Browne ruled. "That leaves me no alternative. You'll each go to jail—for the term of one hour."

The two veterans spent 60 minutes in their cells and were home with their families the same night.

Trapper Outrains Coyote
LAWTON, OKLA. — John J. Pickens, who has trapped 73 coyotes in the Wichita mountains wildlife refuge, spotted a three-month-old coyote pup while driving through the refuge. He chased it at least for half a mile across rocky slopes before the tired animal dodged into a rock crevice. Pickens pulled it out by the tail.

PICKING OFF THE SPARES—by SIXTA**Yak Or Sturdy Beast**

The yak ox, and more particularly the hybrid ox, the mdzo (the result of a cross between the yak and the Chinese cow), is a sturdy beast that will carry approximately 200 pounds, making an average stage of about 15 miles a day and keeping in fair condition if the grazing is good. He is fairly docile and easy to handle although double-jointed and shifty as a goat if minded to throw his load.

Adams Once Taught School

A bronze memorial tablet in Worcester, Mass., bears the inscription: "In front of this tablet stood the first schoolhouse in Worcester, where John Adams, second President of the United States, taught, 1755-1758."

Protects Land From Flooding

Holland has a public department whose business is the protection of the land from flooding.

Life During Hibernation
During hibernation, says the American Wildlife Institute, body functions are reduced to a minimum. Breathing and circulation are at a low ebb and heart beats are slowed up considerably. This "reduced animation," which borders on suspended animation, lessens the amount of fuel needed to run the body. The fuel needed to keep life in the body is drawn from stores of fat on the animal.
